THE COMPANY AND NATURE OF ITS OPERATIONS:

Subject having its registered office in Mumbai, Maharashtra, India, carries on the business of manufacturing Solar Module and related components (such as Solar cells, Ethylene-vinyl acetate and Backsheet).

FINANCIAL HIGH LIGHTS

During the year ended 31st March, 2017 the Company has generated total revenue of INR 2061.951 Million against INR 1230.881 Million in the previous year and has incurred a net loss INR 516.905 Million against INR 199.464 Million in previous year.

The solar industry witnessed challenging times due to unprecedented volatility in raw material prices, drop in module rates and working capital constraints. The power tariff rates had a free fall and many manufacturing units were staring at uncertainty. The Company's expansion plans got delayed / partly cancelled due to constraints at machinery suppliers' end. The import of modules at very low rates with substandard quality also had an impact on their business.

BUSINESS OUTLOOK

In India, the total solar power generation capacity increased from 461 MW in 2011 to 6763 MW in 2016. Over the last few years, the solar power generation capacity in the country has increased tremendously owing to favourable government initiatives coupled with development in manufacturing technology of solar panel.

To boost the solar power generation in the country, the Government of India has announced various policies and regulations, such as, accelerated depreciation, capital subsidy, renewable energy certificate (RECs), net metering incentives, assured power purchase agreement etc. The schemes formulated by the government intends to reduce the capital expenditure in building a solar plant, and subsidize the power generation to make it economically viable for the stakeholders involved in the solar power business.

The Company has since consolidated its operations, improved efficiency level, implemented several cost reduction measures, in addition to enhancing the capital infusion. The Company is now poised for growth with healthy order position. With increasing global demand, support in terms of various measures / initiatives from the government, the Company is confident of achieving better operation and financial results in FY 2017-18 and accordingly has planned ambitious capacity expansion.

AWARD AND RECOGNITION

Company's calibre is consistently highlighted through excellent products and services made available worldwide. The Company was recognized and awarded as the 'Solar Module Backsheet Manufacturer of the Year' for the second consecutive year, and the 'Solar Cells Manufacturer of the Year' at the India Solar Week Excellence Awards 2017. The Company has also earned the distinction of being India's first manufacturer of 5BB Solar PV cells and POE (Polyolefin Elastomer).
