REVIEW OF OPERATION

During the year the Company's sales has grown from INR 5350.000 Million to INR 7580.000 Million, registering a growth of over 41%, driven by full year peak volume of Balaneo model and the increase in demand for new Innova Crysta and new Fortuner V models.

The Directors are constrained to report that there was a major fire incident at the Bawal factory on 6th September 2016 in which the newly constructed building for housing the assembly lines and stocks was substantially damaged. Fortunately, no one suffered any bodily injury. Management has reviewed its safety policy and practices and put in place adequate safeguards to prevent such mishaps. In order to meet customer delivery requirements, post-fire incident, Company had to import materials and parts from Thailand and Indonesia at additional cost. Company has since re-established assembly operations from a leased premises near-by.

Construction of new assembly building in the existing factory has been assigned to an international construction company to ensure safety compliant infra-structure facility which is expected to be operational from early 2018.

The overall loss, including the foregoing additional costs, on account of the fire incident is estimated at over INR 700.000 Million. Company has filed a claim with the insurers, and is pursuing the same.

The Company's operations yielded profits of INR 300.000 Million, however on account of the exceptional loss due to fire, the year ended with a loss of INR 400.000 Million.
