**DIAMOND INDUSTRY – INDIA**

- From time immemorial, India is well known in the world as the birthplace for diamonds. It is difficult to trace the origin of diamonds but history says that in the remote past, diamonds were mined only in India. Diamond production in India can be traced back to almost 8<sup>th</sup> Century B.C. India, in fact, remained undisputed leader till 18<sup>th</sup> Century when Brazilian fields were discovered in 1725 followed by emergence of S. Africa, Russia and Australia.
- The achievement of the Indian diamond industry was possible only due to combination of the manufacturing skills of the Indian workforce and the untiring and unflagging efforts of the Indian diamantaires, supported by progressive Government policies.
- The area of study of family owned diamond businesses derives its importance from the huge conglomerate of family run organizations which operate in the diamond industry since many generations.
- Some of the basic traits of family run business enterprises include spirit of entrepreneurship, mutual trust lowers transaction costs, small, nimble and quick to react, information as a source of advantage and philanthropy.
- Family owned diamond businesses need to improve on many fronts including higher standard of corporate governance, long-term performance – focused strategies, modern management and technology.
- Utmost caution is to be exercised while dealing with some medium and large diamond traders which are usually engaged in fictitious import – export, inter-company transactions, financially assisted by banks. In the process, several public sector banks lost several hundred million rupees. They mostly diverted borrowed money for diamond business into real estate and capital markets.
- Excerpts from Times of India dated 30<sup>th</sup> October 2010 is as under –
- Gem & Jewellery Export Promotion Council in its statistical data has shown the export of polished diamonds to have increase by 28 % in February 2013. Compared to \$ 1.4 bn worth of polished diamond export in February, 2012, India exported \$ 1.84 billion worth of polished diamonds in February 2013. A senior executive of GJEPC said, “Export of cut and polished diamonds started falling month-wise after the imposition of 2 % of import duty on the polished diamonds. But February, 2013 has given a new ray of hope

to the industry as the export of polished diamonds has actually increased by 28 %. It means the industry is on the track of recovery and round tripping of diamonds has stopped completely.” Demand has started coming from the US, the UK, Japan and China. India’s polished diamond export is expected to cross \$ 21 bn in 2013-14.

- The banking sector has started exercising restraint while following prudent risk management norms when lending money to gems and jewellery sector. This follows the implementation of Basel III accord – a global voluntary regulatory standard on bank capital adequacy, stress testing and market liquidity.
