<b>Comments :</b>	<p>Bharat Fritz Werner Limited (BFW) was incorporated in 1961 and is a part of "Kothari Group. It became a fully owned company of Kothari Group in 2003. It is currently a leading producer of machine tools in India.</p> <p>Management has failed to file its financials with Registrar of Companies for the FY 2017.</p> <p>For the financial year 2016, the company has achieved revenue growth of 10.02% as compared to the previous year but has incurred operational loss.</p> <p>The moderate financial position of the company is marked by average net worth base along with high debt balance sheet profile.</p> <p>Rating constrained by the high competitive intensity in the industry, including presence of many foreign suppliers, and significant dependence on the automotive industry for orders.</p> <p>The rating takes into account the company's long track record in machine tool industry, its reputed client base and strong design and execution capabilities.</p> <p>However, as per indirect sources, it has achieved revenue of INR 5136.000 million but has incurred operational loss during the FY2017 and revenue of INR 6094.000 Million along with profit of INR 237.000 Million for the FY 2018.</p> <p>Payment seems to be slow but correct.</p> <p>In view of aforesaid, the company can be considered for business dealings at usual trade terms and conditions.</p>

**BUSINESS FOCUS AND HIGHLIGHTS:**

FY 15/16 has been a year of new technology for BFW, wherein they have been successful in their entry into the Turning business, and able to establish their presence through a complete range of solutions from compact to heavy-duty turning centres. Few of their products in this range especially in the PL-series have received encouraging market acceptance, and this has translated into spurt in order input for BFW.

FY 15/16 has also been the year wherein BFW has made several strategic customer acquisitions in both Government and Private Sector Undertakings. To grow their regional presence and to support local customers through applications and services, they have established two new Tech Centres first in Kolhapur and then in Ahmadabad with close support from their local partners in these areas.

Going forward into FY 16/17 their focus would be primarily on increasing their footprints regionally through expanding their presence in key markets, and through expanding new product technologies particularly in HMCs.

During the year, products from Orion HMC series were placed at strategic customers and the response from the customer was closely monitored and was found to be very positive. They expect Orion product line to successfully win over imported machines of well known brands. Thus a major gap in HMC portfolio is getting filled up.
