INDONESIA - ECONOMIC OVERVIEW

Indonesia, the largest economy in Southeast Asia, has seen a slowdown in growth since 2012, mostly due to the end of the commodities export boom. During the global financial crisis, Indonesia outperformed its regional neighbors and joined China and India as the only G20 members posting growth. Indonesia's annual budget deficit is capped at 3% of GDP, and the Government of Indonesia lowered its debt-to-GDP ratio from a peak of 100% shortly after the Asian financial crisis in 1999 to 33% today. While Fitch and Moody's Investors upgraded Indonesia's credit rating to investment grade in December 2011, Standard & Poor's has yet to raise Indonesia's rating to this status amid several constraints to foreign direct investment in the country, such as a high level of protectionism.

Indonesia still struggles with poverty and unemployment, inadequate infrastructure, corruption, a complex regulatory environment, and unequal resource distribution among its regions. President Joko WIDODO - elected in July 2014 – seeks to develop Indonesia's maritime resources and pursue other infrastructure development, including significantly increasing its electrical power generation capacity. Fuel subsidies were significantly reduced in early 2015, a move which has helped the government redirect its spending to development priorities. Indonesia, with the nine other ASEAN members, will continue to move towards participation in the ASEAN Economic Community, though full implementation of economic integration has not yet materialized

OVERALL PERFORMANCE

P.T. PINDO DELI PULP AND PAPER MILLS (P.T. PDPPM) was established in January 1975 with an authorized capital of Rp. 400,000,000 entirely issued and paid-up. The original founding shareholders of the company are Mr. Rudy Wirianata AKA Ng Kheng Ho, his younger brother Mr. Sanusi Wirianata AKA Tan Tjin. They are Chinese origins Indonesia entrepreneurs. The company notary deed has been changed a couple of times. In February 1994, the authorized capital was raised to Rp. 100,000,000,000 issued and paid up capital to Rp. 20,000,000,000 and all shareholders have concurrently resigned and replaced by new shareholders P.T. KARYANTARA PRAKARSA of Indonesia and SOLIDCLASS INVESTMENTS, Ltd., of Hong Kong. The company was then converted into a foreign investment (PMA) status.

In December 1994, the authorized capital was raised again to Rp. 500,000,000,000 issued and paid-up capital to Rp. 158,000,000,000. Concurrently SOLIDCLASS INVESTMENT Ltd., withdrew and replaced by ASIA PULP & PAPER COMPANY Ltd., of Singapore. In October 1996, the authorized capital increased to Rp. 2,600,000,000,000 issued capital to Rp. 661,785,000,000 fully paid-up. Concurrently, ASIA PULP & PAPER COMPANY LTD., of Singapore, pulled out and P.T. PURINUSA EKAPERSADA of Indonesia entered as new shareholder and as the same occasion. In early of 1999, the authorized capital of company was increased to Rp. 8,000,000,000,000 issued capital to Rp. 2,131,785,000,000 entirely paid up. Then in January 2010 the issued capital was increased to Rp. 2,281,785,000,000 entirely paid up.

Then according to revision of notary documents Mrs. Linda Herawaty, SH., No. 48 dated 28 August 2015 company issued capital was increased to Rp. 3,605,497,500,000 entirely paid up. With this development the composition of it's shareholders has been changed to become P.T. PURINUSA EKAPERSADA (98.56%), P.T. MEGA KLEENINDO (0.54%), P.T. MARIMBA NUGRATAMA (0.36%), P.T. UNITAMA SARTINDO (0.36%) and P.T. UNITRYANE SANTURA (0.18%). Lastly according to revision of notary deed Mr. Desman, SH., no. 13 dated 6 September 2017 the shareholders approved changes the board of director and commissioner of the Company. The amendment was approved by the Ministry of Law and Human Rights in its decision letter No. AHU-AH.01.03-0169924 dated September 8, 2017.

It seems that P.T. PURINUSA EKAPERADA is a private national company of which majority shares is controlled by Mr. Eka Tjipta Widjaja AKA Oei Ek Tjong and his family members. P.T. PDPPM is a member of the SINAR MAS Group, once over been as a large business group in the country.

The company started with operation in 1977 originally running a plant located at Jalan Prof. Dr. Ir. H. Soetami No. 88, Teluk Jambe, Karawang (West Java) standing on 44.0 hectares land. The plant has been expanded for increasing total capacity. In October 1995, P.T. PDPPM again expanded (Pindo 2) located in Desa Kuta Mekar, Kerawang (West Java) standing on 450 hectares land. The above expansion is including coating paper (paper/cartoon coated, cast coated paper, carton manila & ivory, fancy paper/board), uncoated paper (Photocopy, fancy paper/board/cartoon buffalo, paper/cartoon buffalo) and tissue paper (tissue and litho papers). The expansion plants will be located at Kawasan Industri Ngoro Persada, Mojokerto, East Java with an investment of Rp. 1,805.6 billion and the other plant will be located at Makassar, South Sulawesi with an investment of Rp. 1,128.6 billion. The above expansion plants will be produces of jumbo roll and tissue papers converting. However the above expansion plant has yet been operating up to present.

Around 60% products are distributed domestically by using Bola Dunia, Golden Star and Globe brands (photocopy paper), Golden Coin and Golden Art (art paper/cast coated) and the rest is exported to South Korea, the People's Republic of China, India, Belgium and Turkey. For the marketing of the above products, P.T. PDPPM appointed a number of local companies as its distributors among others are P.T. SURYA JAYA PALACE, P.T. PERMATA BIRU INDAH, and P.T. The national pulp and paper industries will be better in 2015 than in 2014. Market estimates of production and sales will be the norm. Additional capacity will continue price of pulp is still going up although with a slower rise in pulp price increases triggered by the low stock of pulp due to the hard efforts of pulp mills to reduce production, to balance the supply-demand, and the purchase of pulp on a large scale by China also triggered a rise in pulp prices. Ir. H. M. Mansur, Chairman of the Presidium APKI (Association of Indonesian Pulp and Paper) said the increased price of paper is not as big and as fast as the price of pulp, because the factories are not as intensive as paper pulp mills to reduce production, so that the paper stock in the world market is still quite great. Indonesia's pulp paper does not seem necessary to limit and reduce production because production will be absorbed by the market-domestic and export markets. Global crisis appears to have started over, things would be normal, production, consumption and prices will rise again. Indonesia has very good potential to be leader in the global pulp and paper industry due to its geographical location.
