MANAGEMENT DISCUSSION & ANALYSIS REPORT

Operating & Financial Performance, Internal Control

India's steel production grew by about 6% from 95.600 million tons in 2016 to 101.4 million tons during 2017.

The Company has benefited from the domestic growth in production as well as from exports. This year the Company's total revenue crossed the INR 9000.000 million mark. Total revenue from operations increased over the previous year driven by both domestic and export business growth.

There is no change in the nature of the business of the Company. The Company has no subsidiaries or associated companies therefore disclosures in this regard are not provided in this Report. There were no significant and material orders passed by regulators or courts or tribunals impacting the going concern status and Company's operations in future. All four factories had been working efficiently during the year. Safety measures and processes have been installed and improved upon at all plants and work sites.

Lending bankers had initiated insolvency proceedings under the Insolvency and Bankruptcy Code, 2016 against three of their customers. Their relationship with these customers, the specialised nature and criticality of their products and the continuous technical and technological support given to these customers ensured that business with them continued as usual. The Company was able to reduce its overall debts and the net receivables are under reasonable control.

As a result of a productivity audit of the Kolkata plant, a programme has been initiated to achieve benefits from productivity gains and operational savings. A Voluntary Separation Scheme was made available as a part of the programme to provide an amicable exit route for those Kolkata Plant workmen who may not be able to participate in the programme. The expected cost of INR 44.400 million for this programme has been provided for as an Exceptional Item.

The Company has in place an established internal control system designed to ensure proper recording of financial and operational information and compliance of various internal controls and other regulatory and statutory compliances. Code on Internal Control which require that the Directors review the effectiveness of internal controls and compliance controls, financial and operational risks, risk assessment and management systems and related party transactions, have been complied with. Self-certification exercises are also conducted by which senior management certify effectiveness of the internal control system, their adherence to Code of Conduct and Company's policies for which they are responsible, financial or commercial transactions, if any, where they have personal interest or potential conflict of interest. Internal Audit is conducted on a pan India basis.

Group Activities

Vesuvius plc, the ultimate holding company, is listed on the London Stock Exchange and is a global leader in metal flow engineering, principally serving the steel and foundry industries.

By their nature, Vesuvius products have a short service life due to wear caused by the high temperature, high thermal cycling and the erosive and corrosive attacks they suffer. Due to the specialised nature of their products and the high volume in which these products are consumed, Vesuvius has developed close, collaborative relationships with customers together with an extended global manufacturing network aligned with customer locations. Vesuvius focuses on gaining a fundamental understanding of customers' processes and delivering systems and products that are mission-critical for the demanding applications in which they are used.
