(As on 31.03.2017)

RATING & COMMENTS

(Mira Inform has adopted New Rating mechanism w.e.f. 23rd January 2017)

MIRA's Rating :

B

Credit Rating	Explanation	Rating Comments
B	Medium Risk	Business dealings permissible on a regular monitoring basis

Status :	Moderate
Payment Behaviour :	Slow but correct
Litigation :	Clear
Comments :	<p>Subject was incorporated in the year 1979 and is a part of the diversified OP Jindal group which is one of India's key steel producers and has a sizeable presence in power generation and mining.</p> <p>For the financial year ended 2018, revenue of the company has been increased by 15.58% but it has incurred loss from its operations during the year under a review.</p> <p>As per information gathered from other sources, the company had successfully raised the equity through Qualified Institutional Placement offer (QIP) aggregating INR 12000.000 Million on March 27, 2018 by issuing 51,502,145 shares at a price of INR 233 per share. Additionally the company has allotted 4,80,00,000 convertible warrants to Opelina Finance and Investments Limited, promoter group entity at a price of INR 1403.100 million per warrant aggregating INR 6730.000 million. Out of warrants issued INR 1880 million (25%) is received in Nov 2017 while the balance is expected in FY20. The company has also received the sanction of priority term loan aggregating INR 15,000 million aiding the liquidity of the company. In October 2017, JSPL had sold and leased back its oxygen plant assets at its integrated steel plants at Raigarh and Angul for INR 11,210 million to SREI Equipment Finance Limited. Under the said transaction JSPL continue to operate the assets for manufacturing steel at respective plants. Out of the proceeds from this divestment JSPL has paid off its overdues to banks since then the conduct of the account is regular. This along with other monetization of assets aided the liquidity position of the company.</p> <p>The ratings, however, continue to remain constrained by the average financial risk profile of the company characterised by relatively high debt levels and low debt coverage indicators. The ratings also continue to remain constrained by the significant exposure towards subsidiaries, cyclicity inherent in the steel industry and price & supply risks associated with coal and iron ore sourcing in the absence of commensurate captive mines.</p>

DISCLAIMER : This Report is **PRIVATE & CONFIDENTIAL** and it is prepared at the request of and for its use by the Subscriber only. The Subscriber shall use the contents of the Report merely as an aid to its business. Mira Inform Private Limited ("MIPL") has collated information/data in the Report, which have not been verified unless otherwise specifically mentioned in the Report. The Subscriber shall independently verify the accuracy and correctness of the information/data before in any way acting upon the same. MIPL shall not be liable for any harm, injury, loss or damage caused to the Subscriber due to default by the Subscriber's debtors/beneficiaries in fulfilling their obligations of any nature whatsoever. This Report or any of its portion shall not be used as a documentary evidence or otherwise before any investigative agencies or forum of law. This Report is confidential and proprietary to MIPL. PRESS RELEASE

JINDAL STEEL & POWER FALLS 6% AFTER NAVEEN JINDAL FACES ADDITIONAL CHARGES IN COAL SCAM CASE

The industrialist is now facing an additional charge for abetment of bribery in the coal scam case.

The Chairman of Jindal Steel and Power Ltd (JSPL), Naveen Jindal is now facing an additional charge for abetment of bribery in the coal scam case, according to media reports. A special court has ordered framing of an additional charge of abetment of bribery against Naveen Jindal and others in a case pertaining to irregularities in the allocation of the Gare Palma IV/1 coal block in Jharkhand, the reports added. The CBI had earlier questioned Jindal on allegations of cheating and corruption.

The impact of this case would not directly impact the operation of JSPL. However, the negative sentiment from this development along with a weak performance from metal stocks in the past few sessions implies that we could see more near term weakness in the stock.

Jindal Steel and Power (JSPL) is close to completing its turnaround and would reach profitability by FY19E. This turnaround is strongly supported by 30.8% CAGR in steel volumes over FY18-20E after the steel plant in Angul becomes operational. Power volumes are also expected to grow at 22.6% over the same period. As a result of higher volumes, we expect revenue CAGR of 23.4% over FY18-20E with an EBITDA margin of 25.9% in FY20E.

DISCLAIMER : This Report is **PRIVATE & CONFIDENTIAL** and it is prepared at the request of and for its use by the Subscriber only. The Subscriber shall use the contents of the Report merely as an aid to its business. Mira Inform Private Limited ("MIPL") has collated information/data in the Report, which have not been verified unless otherwise specifically mentioned in the Report. The Subscriber shall independently verify the accuracy and correctness of the information/data before in any way acting upon the same. MIPL shall not be liable for any harm, injury, loss or damage caused to the Subscriber due to default by the Subscriber's debtors/beneficiaries in fulfilling their obligations of any nature whatsoever. This Report or any of its portion shall not be used as a documentary evidence or otherwise before any investigative agencies or forum of law. This Report is confidential and proprietary to MIPL. This Report is prepared and issued to the Subscriber without any risk, responsibility or liability on the part of MIPL or its officials.

JSPL has a domestic steel capacity of ~8mtpa and 2mtpa capacity steel mill in Oman under its subsidiary Jindal Shadeed (100% stake). The company's international coal mining operations have a capacity of ~2mtpa. The company has 3,400MW capacity for commercial power generation. Of the 3,400MW, a 1,000MW plant is expected to be divested to JSW Energy by 1QFY19E. Consolidated steel production for FY18 stood at 5.7mt, while power generation stood at ~10.9bn units. Utilization for the power segment stood at ~37% for FY18, as poor coal availability hampered power production.

Jindal Steel & Power Ltd is currently trading at Rs205.65 down by Rs13.3 or 6.07% from its previous closing of Rs218.95 on the BSE. The scrip opened at Rs221 and has touched a high and low of Rs223.60 and Rs199.50 respectively. The BSE group 'A' stock of face value Rs1 has touched a 52 week high of Rs294.15 on 23-Jan-2018 and a 52 week low of Rs112 on 11-Aug-2017. Last one week high and low of the scrip stood at Rs229.25 and Rs207 respectively. The stock is currently trading below its 100 DMA.

JINDAL STEEL SOUTH AFRICA UNITS FILE FOR BUSINESS PROTECTION

Jindal Mining, Jindal Africa Investments and Eastern Solid Fuels filed notice of the voluntary proceedings on 12 June

Johannesburg: South African units of Jindal Steel & Power Ltd. filed for a local form of bankruptcy protection known as business rescue this month.

Jindal Mining SA, Jindal Africa Investments and Eastern Solid Fuels filed notice of the voluntary proceedings on 12 June, according to documents posted on Jindal Africa's website. A spokesman for the company didn't immediately reply to emails seeking comment.

Jindal Mining SA's main business is coal production at the Kiepersol mine, according to one of the documents. Business-rescue practitioners for the unit have scheduled a meeting with creditors for 26 June.

Jindal Africa also has operations in Botswana, Mozambique, Namibia, Zambia, Tanzania and Madagascar.]

Jindal Steel & Power, the Indian steelmaker controlled by billionaire Savitri Jindal's family, manufactures sponge iron, mild steel, and cement. It also produces power, conducts mining operations for iron ore and coal, and explores for natural gas and oil.

CBI GRILLS CONGRESS LEADER NAVEEN JINDAL IN COAL SCAM

The Central Bureau of Investigation (CBI) grilled Congress leader and industrialist Naveen Jindal for eight hours at the agency headquarters as an accused in a coal block allocation scam case.

"He was summoned for questioning a week ago and he joined the probe on Monday," said a senior CBI officer, adding that the case pertains to allocation of Gare Palma IV/1 coal block Jindal Strips Limited (now known as Jindal Steel and Power Limited).

Sources also said that he was "evasive during questioning" and he might be summoned again for grilling in the case. Also, the agency will confront the Congress leader with other accused in the case.

Jindal Steel and Power company is accused of cheating and corruption during the probe into coal blocks allocation during 1993-2005.

He was questioned in the 36th FIR registered by the agency. A fresh case has been registered against Jindal Strips Limited (now known as Jindal Steel and Power Limited) and unknown public officials for alleged criminal conspiracy, cheating under the Sections of Indian Penal Code (IPC) and provisions of the Prevention of Corruption Act.

In this matter, the agency had register a PE on September 26, 2012, looking into the allocations of coal blocks during the period 1993-2005.

"It was alleged that 'Gare Palma IV/1' coal block was allocated to the said private company for their sponge iron plant (SIP). It is, inter-alia, alleged that the company proposed and entered into irregular mining lease covering area much beyond the coordinates stipulated by Ministry of Coal, resorted to excess coal mining and irregular regularisation of area beyond coordinates," the agency had claimed.

The company is accused of indulging in excess coal mining, sale of raw coal, sale of coal fines and middling to other than specified end users, irregular permission for consumption of coal in expansion of kilns, and other related allegations.

The company spokesperson said JSPL reiterates that all its actions are in keeping with the legal framework of the country and that it complies with the law in letter and in spirit.

The blocks allocated to JSPL on its own and as part of a partnership were Gare Palma IV/1 (1996), Gare Palma IV/2 (1998), Gare Palma IV/3 (1998), Gare Palma IV/6 (2006) —all in Chhattisgarh.

The company is already facing a CBI probe for an alleged case of cheating and misrepresentation of facts in bagging the Amarkonda Murgadangal block in Birbhum district of Jharkhand in 2008.

Coal-field allocations was controversial since the Comptroller and Auditor General of India (CAG), in a report in August 2012, said that the national exchequer had suffered a loss of Rs 1.86 trillion because of a flawed allocation process.

The CBI is still probing the allotments. Earlier, the Supreme Court had cancelled 204 coal mining permits awarded to firms, terming their allotment arbitrary and illegal after the CAG report.

One More Fraud?

The firm is facing a CBI probe for an alleged case of cheating and misrepresentation of facts in bagging the Amarkonda Murgadangal block in Birbhum district of Jharkhand in 2008

PARADISE PAPERS: ARGENTINA FIRM ROPED IN APPLEBY ON \$2-MN DUES FROM JINDAL

The arbitration was for payment due to Ultrapetrol for the work it did as a contractor engaged by JSPLM for its business in Bolivia.

As on November 9 2017

In March 2015 Ultrapetrol SA registered in Argentina approached Appleby for advice on enforcing a London arbitral award against JSPLM Limited

APPLEBY DOCUMENTS show that Ultrapetrol SA a service provider to Jindal Steel and Power Limited (JSPL) in Bolivia obtained an arbitral award in London in 2015 against Jindal Steel and Power Limited Mauritius (JSPLM) a 100 per cent subsidiary of JSPL related to dues of approximately \$2 million.

In March 2015 Ultrapetrol SA registered in Argentina approached Appleby for advice on enforcing a London arbitral award against JSPLM Limited. Documents show the arbitration was for payment due to Ultrapetrol for the work it did as a contractor engaged by JSPLM for its business in Bolivia.

Ultrapetrol had asked Appleby on the avenues available to enforce of the arbitral award against the assets of Jindal outside Mauritius. It further asked for the procedures that needed to be followed for winding up of Jindal in the event the arbitral award remains unsatisfied.

Appleby suggested that since Mauritius is a signatory to the Convention on the Recognition and Enforcement of Foreign Arbitral Awards (New York Convention) a ruling by a foreign tribunal against a local company may be recognised and enforced by the Supreme Court of Mauritius.

It further said that while the court may exercise its discretion to turn down the enforcement of an arbitral award at the request of the party against whom it is invoked. But it pointed out the UK is a party to the New York Convention and that an arbitral award obtained in London was capable of being recognised and enforced in courts there.

However Appleby noted the winding-up procedures of a Mauritian company were governed under the Insolvency Act 2009. Therefore a liquidator appointed pursuant to the Act will not be able to take control of assets of Jindal outside the jurisdiction of Mauritius Appleby said.

Later in 2015 a report by Minter Ellison a legal and consulting firm based in Australia said that a Federal Court of Australia where Jindal has business interests has ordered that the foreign arbitral award against JSPLM be enforced and that "the non-appearance formed the basis for an order by default".

RESPONSE

Jindal Steel and Power responds: The matter pertains to JSPL's Bolivia project where Ultra Petrol SA was engaged as a contractor for regular course of operations. In 2012 the company had to withdraw from Bolivia project. All matters between subsidiaries of JSPL and Ultra Petrol SA stand amicably resolved and settled.

COAL SCAM: ED TO FILE PROSECUTION COMPLAINT AGAINST JINDAL STEEL AND POWER

The Enforcement Directorate in its status report also told the Supreme Court it has lodged seven more cases in the coal block allocation scam

October 20 2017

The Enforcement Directorate (ED) has told the Supreme Court that it had lodged seven more cases in the coal block allocation scam and was in the process of filing prosecution complaints against two firms including Naveen Jindal-owned Jindal Steel and Power Limited.

In its tenth status report filed in the apex court for the period from January 2016 to September 30 this year ED said it had earlier received 55 FIRs from the CBI and registered enforcement case information report (ECIR) in all of them. "Subsequent to the ninth status report the Directorate of Enforcement has received seven more FIRs from the CBI and it has registered ECIR in respect of these seven cases" the agency told a bench headed by Justice M B Lokur.

The agency told the bench which also comprised Justices Kurian Joseph and A K Sikri that provisional attachment orders have been issued in 11 cases. "There has been a slight increase in the number of provisional attachment orders from the earlier status report" the court noted in its order adding "Prosecution complaint has been filed in two cases (AMR Iron and Steel Private Limited and Nav Bharat Power Private Limited). Filing of prosecution complaints are in process in respect of Jindal Steel and Power Limited and Grace Industries Limited" the order said.

Naveen Jindal was granted bail in September by a special court in a case related to the allocation of a coal block in Madhya Pradesh. ED also told the top court Kamal Sponge Steel and Power Limited was being investigated. The apex court has asked ED to file the next status report before December 4 while asking the agency and the CBI to expedite their probe in the coal scam cases.

The apex court had on January 23 constituted a special investigation team (SIT) to probe the allegations of "abuse of authority" prima facie committed by former CBI Director Ranjit Sinha to scuttle investigation and enquiries in the coal block allocation cases. It had later directed that no CBI officer who is probing coal scam cases or officials from SIT probing allegations of "abuse of authority" against the former CBI director would be transferred without its prior permission.

HDFC BANK WORLD'S MOST RICHLY VALUED LENDER HAS AN UNHAPPY SECRET

As on December 04 2017

HDFC Bank must acknowledge the divergence between its self-reported and RBI-assessed NPAs

Bad things don't happen to good banks. Or that's the carefully crafted image projected by the world's priciest lender.

Assiduously shielding its loan book from the flying debris of India's \$207 billion bad-debt crisis HDFC Bank Limited has kept its balance sheet in a near-pristine condition. The aura of invincibility bestowed by a 1.26% soured-loan ratio—compared with almost 10% for State Bank of India and 25% for IDBI Bank Limited — also explains why HDFC Bank has a price-to-book multiple of 5.2. Among lenders with at least \$50 billion in market value anywhere none is as expensive.

So it was a surprise last month when HDFC Bank reported a hefty provision against an unnamed corporate account that it said wasn't a non-performing asset then one day later marked the loan down to NPA because the Reserve Bank of India (RBI) the regulator had told it to do so.

The matter would have rested there were it not for an independent banking analyst Hemindra Hazari. In a note on Smartkarma a research website Hazari reproduced last week a letter from the bank to Jindal Steel and Power Ltd allowing it to sell and lease back its oxygen plant provided the proceeds were “utilized towards clearing overdues to make our account absolutely regular.”

This opens a Pandora’s Box. Jindal Steel had net debt of INR 440000.000 Million (\$6.8 billion) at the end of September. Was the steel company indeed the unidentified shaky account? If so was HDFC Bank on the hook to that borrower for more than 15% of its reported non-performing assets on 31 March the end of its financial year? Hazari believes so.

In that case the correct thing to do would be for HDFC Bank to acknowledge the “divergence” between its self-reported and RBI-assessed NPAs. But doing so would also mean admitting that those soured loans net of provisions were 95% more than disclosed in the full-year accounts.

Its halo would thus slip and the charge of being less than truthful that I’ve levelled at other non-state Indian lenders—Axis Bank Limited ICICI Bank Limited and Yes Bank Limited —would apply equally to HDFC Bank.

Questions might also arise about the RBI. Axis Bank chief executive officer Shikha Sharma told the Economic Times that she was compelled by the central bank to reclassify standard borrowers as NPAs and did so because “we are obedient children.” Jindal Steel has been named by local media as one of those accounts. The RBI can’t arbitrarily force some lenders to appear less than truthful while sparing others the humiliation of a mea culpa.

The fairness of the RBI’s assessment is one thing its correctness is another. For now India’s bloated steelmakers are enjoying an uptick in domestic demand and operating profitability. But they aren’t out of the woods.

Suppose sometime after March next year Jindal Steel struggled to pay rentals on its expensive sale-and-leaseback deal with Srei Equipment Finance Limited and the latter dragged it to the insolvency tribunal. By then the firm would have been an NPA for a year and India recently prohibited borrowers with non-performing loans overdue a year or longer—or parties connected to such debtors—from bidding for assets in bankruptcy.

Not only would Naveen Jindal chairman of Jindal Steel stand to forfeit the firm; even his brother Sajjan Jindal’s JSW Energy Limited which is already bailing out the sibling’s company by buying one of its power plants would be unable to help him win it back because it’s a connected party.

With the stakes this high the RBI needs to crack the whip of asset classification with a steady hand—one that treats creditors fairly and borrowers correctly. Meanwhile HDFC Bank must present a more accurate picture of its soured loans. After all bad things can happen even to great banks.

COAL SCAM: SPECIAL COURT PULLS UP CBI FOR NOT PROVIDING DOCUMENTS TO ACCUSED

Date: 12.03.2018

According to the CBI charge sheet in this case, the accused had misrepresented facts in its January 2007 application before the Screening Committee, responsible for recommending coal block allocation.

A special court on Monday pulled up the CBI for not supplying documents to the accused in a coal scam case, involving industrialist Naveen Jindal, as directed by it in its last order. Special judge Bharat Parashar adjourned the matter for scrutiny of documents to April 10 in the case pertaining to the allocation of the Urtan North Coal block in Madhya Pradesh. "Comply with the direction of the court.

Adjourned for scrutiny of documents on April 10," the judge said. The court had on January 15 directed the CBI to hand over some documents filed, along with the charge sheet, to industrialist Naveen Jindal and others. The court was hearing a matter pertaining to the allocation of Urtan North coal block in Madhya Pradesh where the offences of "cheating" and "criminal conspiracy" were "prima facie" made out against the accused.

Besides Jindal, the other accused in the case include Jindal Steel and Power Ltd's (JSPL) former Director Sushil Maroo, former Deputy MD Anand Goyal and CEO Vikrant Gujral. Jindal is named as accused, along with former Minister of State for Coal Dasari Narayan Rao and former Jharkhand Chief Minister Madhu Koda, in another case pertaining to alleged irregularities in allocation of Amarkonda Murgadangal coal block in Jharkhand.

According to the CBI charge sheet in this case, the accused had misrepresented facts in its January 2007 application before the Screening Committee, responsible for recommending coal block allocation, for obtaining the Madhya Pradesh coal block and hence cheated the Coal Ministry to get wrongful gains. The ministry had issued the allocation letter to the firm in October 2009. The probe agency has named 64 persons as prosecution witnesses to prove its case besides annexing 60 documents in its charge sheet.

The charge sheet has said that in the feedback form, the firm misrepresented or made false claims on two counts—that it had already acquired 964 acres of land for its Jharkhand- based Patratu project and that it had placed orders for equipment for its Odisha-based Angul project for INR 43400.000 Million.

JINDAL STEEL CLOSES INR 12000.000 MILLION QIP ISSUE

NEW DELHI, MARCH 23

Jindal Steel and Power Limited (JSPL) has raised INR 12000.000 Million through a Qualified Institutions Placement (QIP) issue launched on March 20.

A company statement said, "The board of JSPL approved the issuance of shares at ₹ 233 per share, which was ₹ 5.85 above the floor price. The order book was oversubscribed with significant interest coming from domestic and foreign long term investors."

The funds from this equity raise are expected to be used primarily for working capital requirements, payment of operational and capital expenditure creditors and repayment of certain long term loans, the statement added.

JINDAL STEEL AND POWER SETS FLOOR PRICE OF QIP AT INR 227.15 PER SHARE

March 20, 2018

Jindal Steel and Power Limited (JSPL) has set the floor price for its QIP at INR 227.15 per share, with a provision to issue shares at a 5% discount. The size of the QIP is expected to be INR 2500.000 Million. This puts the number new shares issued at INR 55.000 Million, which amounts to a 6% dilution of equity. The Board of Directors of JSPL is meeting on the March 23 to approve the details of the QIP offer. The company has stated in the offer document that they intend to use the proceeds of the issue for purposes, which include payment of creditors, repayment of long term loans, and any other purpose.

SPL has an outstand debt of INR 443970.000 Million, 33% of which is debt that is denominated in foreign currency (mainly US Dollar). Using the proceeds of the issue to reduce debt would have a slight positive impact. However, the real impact would be whether the issue is completed at a premium to the floor price. The company has been looking for ways to raise equity to reduce the level of debt. The company has stated that they are considering a listing of the Oman subsidiary on a foreign exchange. The listing is expected to raise an additional INR 15000.000-20000.000 Million.

JSPL is involved in iron and steel making, mining of iron ore and coal as well as power generation. The company's domestic steel capacity stood at 8.6mtpa in Q3FY18. The company also operates a 2mtpa steel mill in Oman under its subsidiary Jindal Shadeed (100% stake). The company's international coal mining operations have a capacity of ~2mtpa. The domestic iron ore mine has a capacity of 3.11mtpa. The company also has a capacity of 1,634MW of power generation for captive use and 3,400MW for commercial generation. Out of this, a 1,000MW plant is expected to be divested to JSW Energy.

We expect the company to report revenue CAGR of 18.5% over FY17-20E aided by (a) ~19.1% CAGR volume growth for steel products, and (b) ~24.8% CAGR volume growth for power generation. EBITDA margins are also likely to expand by ~201bps owing to improved utilisations for the steel, mining and power businesses. The stock is currently trading at 16.3x FY20E EPS.

CMT REPORT (Corruption Money Laundering & Terrorism)

The Public Notice information has been collected from various sources including but not limited to: **The Courts India Prisons Service Interpol etc.**

1] INFORMATION ON DESIGNATED PARTY

No records exist designating subject or any of its beneficial owners controlling shareholders or senior officers as terrorist or terrorist organization or whom notice had been received that all financial transactions involving their assets have been blocked or convicted found guilty or against whom a judgement or order had been entered in a proceedings for violating money-laundering anti-corruption or bribery or international economic or anti-terrorism sanction laws or whose assets were seized blocked frozen or ordered forfeited for violation of money laundering or international anti-terrorism laws.

2] Court Declaration :

No records exist to suggest that subject is or was the subject of any formal or informal allegations prosecutions or other official proceeding for making any prohibited payments or other improper payments to government officials for engaging in prohibited transactions or with designated parties.

3] Asset Declaration :

No records exist to suggest that the property or assets of the subject are derived from criminal conduct or a prohibited transaction.

4] Record on Financial Crime :

Charges or conviction registered against subject: **None**

5] Records on Violation of Anti-Corruption Laws :

Charges or investigation registered against subject: **None**

6] Records on Int'l Anti-Money Laundering Laws/Standards :

Charges or investigation registered against subject: **None**

7] Criminal Records

No available information exist that suggest that subject or any of its principals have been formally charged or convicted by a competent governmental authority for any financial crime or under any formal investigation by a competent government authority for any violation of anti-corruption laws or international anti-money laundering laws or standard.

8] Affiliation with Government :

No record exists to suggest that any director or indirect owners controlling shareholders director officer or employee of the company is a government official or a family member or close business associate of a Government official.

9] Compensation Package :

Our market survey revealed that the amount of compensation sought by the subject is fair and reasonable and comparable to compensation paid to others for similar services.

10] Press Report :

No press reports / filings exists on the subject.

CORPORATE GOVERNANCE

MIRA INFORM as part of its Due Diligence do provide comments on Corporate Governance to identify management and governance. These factors often have been predictive and in some cases have created vulnerabilities to credit deterioration.

Our Governance Assessment focuses principally on the interactions between a company's management its Board of Directors Shareholders and other financial stakeholders.

CONTRAVENTION

Subject is not known to have contravened any existing local laws regulations or policies that prohibit restrict or otherwise affect the terms and conditions that could be included in the agreement with the subject.

RATING EXPLANATIONS

Credit Rating	Explanation	Rating Comments
A++	Minimum Risk	Business dealings permissible with minimum risk of default
A+	Low Risk	Business dealings permissible with low risk of default
A	Acceptable Risk	Business dealings permissible with moderate risk of default
B	Medium Risk	Business dealings permissible on a regular monitoring basis
C	Medium High Risk	Business dealings permissible preferably on secured basis
D	High Risk	Business dealing not recommended or on secured terms only
NB	New Business	No recommendation can be done due to business in infancy stage
NT	No Trace	No recommendation can be done as the business is not traceable

NB is stated where there is insufficient information to facilitate rating. However it is not to be considered as unfavourable.

This score serves as a reference to assess SC's credit risk and to set the amount of credit to be extended. It is calculated from a composite of weighted scores obtained from each of the major sections of this report. The assessed factors are as follows:

- Financial condition covering various ratios
- Company background and operations size
- Promoters / Management background
- Payment record
- Litigation against the subject
- Industry scenario / competitor analysis
- Supplier / Customer / Banker review (wherever available)
