UNITED STATES - ECONOMIC OVERVIEW

The US has the most technologically powerful economy in the world, with a per capita GDP of \$59,500. US firms are at or near the forefront in technological advances, especially in computers, pharmaceuticals, and medical, aerospace, and military equipment; however, their advantage has narrowed since the end of World War II. Based on a comparison of GDP measured at purchasing power parity conversion rates, the US economy in 2014, having stood as the largest in the world for more than a century, slipped into second place behind China, which has more than tripled the US growth rate for each year of the past four decades.

In the US, private individuals and business firms make most of the decisions, and the federal and state governments buy needed goods and services predominantly in the private marketplace. US business firms enjoy greater flexibility than their counterparts in Western Europe and Japan in decisions to expand capital plant, to lay off surplus workers, and to develop new products. At the same time, businesses face higher barriers to enter their rivals' home markets than foreign firms face entering US markets.

Long-term problems for the US include stagnation of wages for lower-income families, inadequate investment in deteriorating infrastructure, rapidly rising medical and pension costs of an aging population, energy shortages, and sizable current account and budget deficits.

The onrush of technology has been a driving factor in the gradual development of a "two-tier" labor market in which those at the bottom lack the education and the professional/technical skills of those at the top and, more and more, fail to get comparable pay raises, health insurance coverage, and other benefits. But the globalization of trade, and especially the rise of low-wage producers such as China, has put additional downward pressure on wages and upward pressure on the return to capital. Since 1975, practically all the gains in household income have gone to the top 20% of households. Since 1996, dividends and capital gains have grown faster than wages or any other category of after-tax income.

Imported oil accounts for more than 50% of US consumption and oil has a major impact on the overall health of the economy. Crude oil prices doubled between 2001 and 2006, the year home prices peaked; higher gasoline prices ate into consumers' budgets and many individuals fell behind in their mortgage payments. Oil prices climbed another 50% between 2006 and 2008, and bank foreclosures more than doubled in the same period. Besides dampening the housing market, soaring oil prices caused a drop in the value of the dollar and a deterioration in the US merchandise trade deficit, which peaked at \$840 billion in 2008. Because the US economy is energy-intensive, falling oil prices since 2013 have alleviated many of the problems the earlier increases had created.

The sub-prime mortgage crisis, falling home prices, investment bank failures, tight credit, and the global economic downturn pushed the US into a recession by mid-2008. GDP contracted until the third quarter of 2009, the deepest and longest downturn since the Great Depression. To help stabilize financial markets, the US Congress established a \$700 billion Troubled Asset Relief Program in October 2008. The government used some of these funds to purchase equity in US banks and industrial corporations, much of which had been returned to the government by early 2011. In January 2009, Congress passed and former President Barack OBAMA signed a bill providing an additional \$787 billion fiscal stimulus to be used over 10 years - two-thirds on additional spending and one-third on tax cuts - to create jobs and to help the economy recover. In 2010 and 2011, the federal budget deficit reached nearly 9% of GDP. In 2012, the Federal Government reduced the growth of spending and the deficit shrank to 7.6% of GDP. US revenues from taxes and other sources are lower, as a percentage of GDP, than those of most other countries.

Wars in Iraq and Afghanistan required major shifts in national resources from civilian to military purposes and contributed to the growth of the budget deficit and public debt. Through FY 2018, the direct costs of the wars will have totaled more than \$1.9 trillion, according to US Government figures.

In March 2010, former President OBAMA signed into law the Patient Protection and Affordable Care Act (ACA), a health insurance reform that was designed to extend coverage to an additional 32 million Americans by 2016,

through private health insurance for the general population and Medicaid for the impoverished. Total spending on healthcare - public plus private - rose from 9.0% of GDP in 1980 to 17.9% in 2010.

In July 2010, the former president signed the DODD-FRANK Wall Street Reform and Consumer Protection Act, a law designed to promote financial stability by protecting consumers from financial abuses, ending taxpayer bailouts of financial firms, dealing with troubled banks that are "too big to fail," and improving accountability and transparency in the financial system - in particular, by requiring certain financial derivatives to be traded in markets that are subject to government regulation and oversight.

The Federal Reserve Board (Fed) announced plans in December 2012 to purchase \$85 billion per month of mortgage-backed and Treasury securities in an effort to hold down long-term interest rates, and to keep short-term rates near zero until unemployment dropped below 6.5% or inflation rose above 2.5%. The Fed ended its purchases during the summer of 2014, after the unemployment rate dropped to 6.2%, inflation stood at 1.7%, and public debt fell below 74% of GDP. In December 2015, the Fed raised its target for the benchmark federal funds rate by 0.25%, the first increase since the recession began. With continued low growth, the Fed opted to raise rates several times since then, and in December 2017, the target rate stood at 1.5%.

In December 2017, Congress passed and President Donald TRUMP signed the Tax Cuts and Jobs Act, which, among its various provisions, reduces the corporate tax rate from 35% to 21%; lowers the individual tax rate for those with the highest incomes from 39.6% to 37%, and by lesser percentages for those at lower income levels; changes many deductions and credits used to calculate taxable income; and eliminates in 2019 the penalty imposed on taxpayers who do not obtain the minimum amount of health insurance required under the ACA. The new taxes took effect on 1 January 2018; the tax cut for corporations are permanent, but those for individuals are scheduled to expire after 2025. The Joint Committee on Taxation (JCT) under the Congressional Budget Office estimates that the new law will reduce tax revenues and increase the federal deficit by about \$1.45 trillion over the 2018-2027 period. This amount would decline if economic growth were to exceed the JCT's estimate.

HISTORY

History	The American National Red Cross was founded by Clara Barton on May 21, 1881 and incorporated by Act of Congress on 1/5/1905.
Key Developments	Although it was chartered by Congress in 1905, The American Red Cross isn't a government agency. The not-for-profit organization relies on the efforts of nearly a million volunteers. She became its first president. Barton organized a meeting on May 12 of that year at the home of Senator Omar D. Conger (R, MI). Fifteen people were present at this first meeting, including Barton, Conger and Representative William Lawrence (R, OH) (who became the first vice-president) The first local chapter was established in 1881 at the English Evangelical Lutheran Church of Dansville at Dansville, New York. Jane Delano (1862–1919) founded the American Red

Cross Nursing Service on January 20, 1910.

RECENT KEY DEVELOPMENTS:

The Sickle Cell Disease Association of America, Inc., the Sickle Cell Foundation of Georgia, Inc. and the American Red Cross Announce Five-Year Partnership Oct 10 18

The Sickle Cell Disease Association of America, Inc., the Sickle Cell Foundation of Georgia, Inc. and the American Red Cross announced a new five-year partnership and the launch of national blood drive and educational campaign that will enhance awareness about sickle cell disease while addressing critical blood supply needs. The initiative will also target African-American blood donors and highlight the need for a stable supply of blood donors of African descent. Through collaboration with community-based organizations, advocacy groups, colleges and universities, hospitals, and others, this partnership will help to ensure patients have access to lifesaving blood products.

American Red Cross Elects Johnny C. Taylor, Jr. as New Member to National Board of Governors Jul 20 18

The American Red Cross has elected to its National Board of Governors Johnny C. Taylor, Jr., President and Chief Executive Officer of the Society for Human Resource Management.

American Red Cross Elects Y. Michele Kang as New Member to National Board of Governors Jul 20 18

The American Red Cross has elected to its National Board of Governors Y. Michele Kang, CEO and Founder of Cognosante. The Red Cross is led by a Board of Governors with all of the powers of governing and directing, as well as overseeing the management of the business and affairs of the organization. At the Annual Meeting of the Red Cross held on July 19, 2018, delegates from local Red Cross units elected Kang to a three-year term.

The American National Red Cross is a Federally chartered instrumentality of the United States and a body corporate and politic in the District of Columbia.

Parent Company

PRINCIPAL ACTIVITY

General Description

THE AMERICAN NATIONAL RED CROSS is a charitable organization, provides emergency assistance, disaster relief, and education.

Service/Product Description

The organization provides shelter, food, health, and mental health services to help families and entire communities get back on their feet. The Red Cross helps military members, veterans and their families prepare for, cope with, and respond to the challenges of military service. The organization also offers blood collection services and health and safety courses including cardiopulmonary resuscitation (CPR), first aid, and lifeguard training.

The purposes of the corporation are: (1) to provide volunteer aid in time of war to the sick and wounded of the armed forces, in accordance with the spirit and conditions of: (A) the conference of Geneva of October, 1863; (B) the treaties of the Red Cross, or the treaties of Geneva, of August 22, 1864, July 27, 1929, and August 12, 1949, to which the United States of America has given its adhesion; and (C) any other treaty, convention, or protocol similar in purpose to which the United States of America has given or may give its adhesion; (2) in carrying out the purposes described in clause (1) of this section, to perform all the duties devolved on a national society by each nation that has acceded to any of those treaties, conventions, or protocols; (3) to act in matters of voluntary relief and in accordance with the military authorities as a medium of communication between the people of the United States and the armed forces of the United States and to act in those matters between similar national societies of governments of other countries through the International Committee of the Red Cross and the Government, the people, and the armed forces of the United States; (4) to carry out a system of national and international relief in time of peace, and apply that system in mitigating the suffering caused by pestilence, famine, fire, floods, and other great national calamities, and to devise and carry out measures for preventing those calamities; and (5) to conduct other activities consistent with the foregoing purposes.

General Description

WE ATTACH THE LATEST FINANCIAL STATEMENTS OF THE AMERICAN NATIONAL RED CROSS

LEGAL FILINGS

Description

LAW: U.S. Code › Title 36 › Subtitle III › Chapter 3001 › § 300101

MEMBERSHIP. Membership in the corporation is open to all the people of the United States and its territories and possessions, on payment of an amount specified, or as otherwise provided, in the bylaws.

BOARD OF GOVERNORS-- (1) IN GENERAL.—The board of governors is the governing body of the corporation with all powers of governing and directing, and of overseeing the management of the business and affairs of, the corporation. (2) NUMBER.—The board of governors shall fix by resolution, from time to

time, the number of members constituting the entire board of governors, provided that— (A) as of March 31, 2009, and thereafter, there shall be no fewer than 12 and no more than 25 members; and (B) as of March 31, 2012, and thereafter, there shall be no fewer than 12 and no more than 20 members constituting the entire board. Procedures to implement the preceding sentence shall be provided in the bylaws.

EMBLEM AND BADGE. In carrying out its purposes under this chapter, the corporation may have and use, as an emblem and badge, a Greek red cross on a white ground, as described in the treaties of Geneva, August 22, 1864, July 27, 1929, and August 12, 1949, and adopted by the nations acceding to those treaties.
DELIVERY OF BRASSARD. In accordance with those treaties, the delivery of the brassard allowed for individuals neutralized in time of war shall be left to military authority.

ANNUAL MEETINGS. (a) **IN GENERAL.**—The annual meeting of the corporation is the annual meeting of delegates of the chapters. (b) **TIME OF MEETING.**—The annual meeting shall be held as determined by the board of governors. (c) **PLACE OF MEETING.**—The board of governors is authorized to determine that the annual meeting shall not be held at any place, but may instead be held solely by means of remote communication subject to such procedures as are provided in the bylaws. (d) **VOTING.**— (1) **IN GENERAL.**—In matters requiring a vote at the annual meeting, each chapter is entitled to at least 1 vote, and voting on all matters may be conducted by mail, telephone, telegram, cablegram, electronic mail, or any other means of electronic or telephone transmission, provided that the person voting shall state, or submit information from which it can be determined, that the method of voting chosen was authorized by such person. (2) **ESTABLISHMENT OF NUMBER OF VOTES.**— (A) **IN GENERAL.**—The board of governors shall determine on an equitable basis the number of votes that each chapter is entitled to cast, taking into consideration the size of the membership of the chapters, the populations served by the chapters, and such other factors as may be determined by the board. (B) **PERIODIC REVIEW.**—The board of governors shall review the allocation of votes at least every 5 years.
BUILDINGS (a) **OWNERSHIP.** The United States

Government shall retain ownership of the corporation's permanent headquarters, comprised of buildings erected on square 172 in the District of Columbia, including: (1) the memorial building to commemorate the service and sacrifice of the women of the United States, North and South, during the Civil War, erected for the use of the corporation; (2) the memorial building to commemorate the service and sacrifice of the patriotic women of the United States, its territories and possessions, and the District of Columbia during World War I, erected for the use of the corporation; and (3) the permanent building erected for the use of the corporation in connection with its work in cooperation with the Government. (b) MAINTENANCE AND EXPENSES. Those buildings shall remain under the supervision of the Administrator of General Services. However, the corporation shall care for and maintain the buildings without expense to the Government. ENDOWMENT FUND The endowment fund of the corporation shall be kept and invested under the management and control of a board of trustees elected by the board of governors. The corporation shall prescribe policies and regulations on terms and tenure of office, accountability, and expenses of the board of trustees.

COMPTROLLER The Comptroller General of the United States is authorized to review the corporation's involvement in any Federal program or activity the Government carries out under law.

American Nat. Red Cross v. S. G., 505 U.S. 247 (1992) OCTOBER TERM, 1991

Syllabus

AMERICAN NATIONAL RED CROSS v. S. G. ET AL. CERTIORARI TO THE UNITED STATES COURT OF APPEALS FOR THE FIRST CIRCUIT

No. 91-594. Argued March 3, 1992-Decided June 19, 1992

Johnson & Johnson et al v. The American National Red Cross et al, No. 1:2007cv07061 - Document 79 (S.D.N.Y. 2008)

Court Description: OPINION AND OPINION 96067: For the reasons stated herein, all of the motions are denied except for the portion of J&Js motion seeking dismissal of ARCs three counterclaims and the portion of defendants motion seeking dismissal of Counts 1, 3, 5 and 6 of the Amended Complaint. As for J&Js motion for summary judgment dismissing the codefendant's two counterclaims for trademark invalidity pursuant to

Lawsuits

28 U.S.C. 2201 and cancellation of trademark under 15 U.S.C. 1119 and 15 U.S.C. 1064(3), this motion is premised entirely on the premise that if the codefendant's use of the emblem is illegal under 18 U.S.C. 706, then the codefendant's do not have standing to assert these counterclaims. Pl. Mem. at 39. Because, however, the Court has concluded that the codefendant's use of the emblem is not illegal under 18 U.S.C. 706, this argument is moot and the motion must be denied. 14 In sum, the Court hereby grants the portion of plaintiff's summary judgment motion that seeks dismissal of the three counterclaims brought by defendant American National Red Cross and hereby grants the portion of defendant's summary judgment motion that seeks dismissal of Counts 1, 3, 5 and 6 of the Amended Complaint. In all other respects, the parties respective summary judgment motions are hereby denied. Counsel are instructed to jointly call Chambers at 2 p.m. on May 16, 2008 to schedule a prompt date for trial of the remaining claims, i.e. Counts 2, 7, and 8 of the Amended Complaint and the two counterclaims of the codefendant's. (Signed by Judge Jed S. Rakoff on 5/14/2008) (jfe) Modified on 5/16/2008 (ae).

Method of inactivating pathogens in a red blood cell-containing composition

Publication number: 20010046662

Abstract: The invention provides a method for reducing the level of active pathogenic contaminants, such as viruses, bacteria and parasites, found in whole blood and blood components. The method comprises adding to a red blood cell-containing composition at least one phenothiazin-5-ium dye in an amount effective to reduce the level of active pathogenic contaminants and at least one blocking compound in an amount effective to enhance pathogen inactivation and protect red blood cells from hemolysis, and irradiating the red blood cell-containing composition with light of an appropriate intensity and wavelength for a time sufficient to reduce the level of active pathogenic contaminants in the red blood cell-containing composition. An irradiated red blood cell-containing composition comprising red blood cells, a phenothiazin-5-ium dye and a blocking compound is also provided.

Synthetic, plasma-free, transfusable storage medium for red blood cells and platelets

Patent number: 5248506

Abstract: The invention is a sterile, plasma-free storage medium for blood components including red blood cells and for platelets processed separately or together. The red cell storage medium includes a physiologically compatible, aqueous electrolyte solution. In one liter of this electrolyte solution there is between about 3.0 grams and about 25.0 grams of dextrose, between about 3.0 grams and about 6.0 grams of sodium citrate, and between about 2.0 grams and about 4.2 grams of sodium bicarbonate. The red cell storage medium is isotonic and has a pH in a range of between about 6.8 and about 7.4. The red cell storage medium is capable of storing and preserving red cells for at least 49 days.

Type: Grant

Filed: October 5, 1990

Date of Patent: September 28, 1993

Assignee: American National Red Cross

Inventors: Stein Holme, William A. L. Heaton

Synthetic, plasma-free, transfusable storage medium for red blood cells and platelets

Patent number: 5487971

Abstract: The invention is a sterile, plasma-free storage medium for blood components including red blood cells and for platelets processed separately or together. The red cell storage medium includes adenine and a physiologically compatible, aqueous electrolyte solution. In one liter of this electrolyte solution there is between about 3.0 grams and about 25.0 grams of dextrose, between about 3.0 grams and about 6.0 grams of sodium citrate, and between about 2.0 grams and about 4.2 grams of sodium bicarbonate. The red cell storage medium is isotonic and has a pH in a range of between about 6.8 and about 7.4. The red cell storage medium is capable of storing and preserving red cells for at least 49 days.

Type: Grant

Filed: September 28, 1993

Date of Patent: January 30, 1996

Assignee: American National Red Cross

Inventors: Stein Holme, William A. L. Heaton

Prolonged storage of red blood cells

Patent number: 4585735

Abstract: The present invention discloses a hypotonic suspension medium and a method for prolonged storage of red blood cells at about 4.degree. C. The suspension medium comprises about 80-150 mM glucose, 30-80 mM mannitol, 6-90 mM potassium citrate, 1-5 mM adenine and 10-200 mM ammonium chloride or acetate in an aqueous solution having a pH of about 6.8 to 7.2 and an osmolarity of about 180-220 milli-osmolar. The suspension medium and the method of the present invention allow viable storage of red blood cells at about 4.degree. C. up to 125 days or more.

Type: Grant

Filed: July 19, 1984

Date of Patent: April 29, 1986

Assignee: American National Red Cross

Inventors: Harold T. Meryman, Marne Hornblower, Ralph Syring

Procedure for storing red cells with prolonged maintenance of cellular concentrations of ATP and 2,3 DPG

Patent number: 5250303

Abstract: This invention provides an improved method for prolonging the shelf life of transfusable red blood cells by decreasing the effective osmolality of the suspending solution and increasing the intracellular pH of the cells prior to storage thereof. This invention also provides methods whereby the intracellular pH may be increased. These methods include collecting the cells in an anticoagulant at pH 7.0 or higher and/or washing, diluting or resuspending the cells prior to storage thereof in a biologically compatible buffered solution that contains at least one non-penetrating or substantially non-penetrating anion or non-electrolyte and is substantially free of chloride ions.

Filed: October 9, 1990

Date of Patent: October 5, 1993

Assignee: The American National Red Cross

Inventors: Harold T. Meryman, Marne Hornblower, Ralph Syring

Decontamination of biological fluids using diphenylpyrilium compounds

Publication number: 20060269907

Abstract: The present invention affords means for

decontaminating biological fluids such as blood and blood components. The method involves contacting a biological fluid with a diphenylpyrilium compound, and irradiating the mixture with red light. The method is a potent and effective means for eliminating or diminishing active pathogens such as viruses, bacteria, and parasites, without causing substantial hemolysis or otherwise degrading the storage stability of the decontaminated biological fluid.

Type: Application

Filed: June 4, 2004

Publication date: November 30, 2006

Applicant: American National Red Cross

Inventors: Stephen Wagner, Andrey Skripchenko

Disinfection of biological fluids using asymmetric cyanine dyes

Patent number: 7678538

Abstract: Asymmetric cyanine dyes of Formula I bind nucleic acid but not red blood cell membrane, and function as photosensitizers when rigidly bound but not when free in solution. Unbound dye thus causes minimal oxidative damage. The dyes do not substantially accumulate in red blood cells, thereby minimizing hemolysis due to oxidative damage. Biological fluids can be disinfected by mixing the fluid with these asymmetric cyanine dye that binds to nucleic acid, irradiating the mixture, and recovering clinically significant components from the biological fluid and/or assaying the fluid for pathogens.

Type: Grant

Filed: May 10, 2006

Date of Patent: March 16, 2010

Assignee: American National Red Cross

Inventor: Stephen J. Wagner

This Report is prepared and issued to the Subscriber without any risk, responsibility or liability on the part of MIPL or its officials.

It is a nationwide network of 264 chapters and 36 blood service regions. Approximately 166,000 Red Cross volunteers, including FemaCorps and AmeriCorps members, and 30,000 employees annually mobilize relief to people affected by more than 67,000 disasters, train almost 4 million people in necessary medical skills and exchange more than a million emergency messages for U.S. military service personnel and their family members.

It mainly imports from Hong Kong and China, and exports worldwide, operating within national and international markets.

The American National Red Cross is a Federally chartered instrumentality of the United States and a body corporate and politic in the District of Columbia. It is the designated US affiliate of the International Federation of Red Cross and Red Crescent Societies and the United States movement to the International Red Cross and Red Crescent Movement.

This has been an ACTIVE company incorporated in the District of Columbia in 1905.

RATING EXPLANATIONS

Credit Rating	Explanation	Rating Comments
A++	Minimum Risk	Business dealings permissible with minimum risk of default
A+	Low Risk	Business dealings permissible with low risk of default
A	Acceptable Risk	Business dealings permissible with moderate risk of default
B	Medium Risk	Business dealings permissible on a regular monitoring basis
C	Medium High Risk	Business dealings permissible preferably on secured basis
D	High Risk	Business dealing not recommended or on secured terms only
NB	New Business	No recommendation can be done due to business in infancy stage
NT	No Trace	No recommendation can be done as the business is not traceable

NB is stated where there is insufficient information to facilitate rating. However, it is not to be considered as unfavourable.

This score serves as a reference to assess SC's credit risk and to set the amount of credit to be extended. It is calculated from a composite of weighted scores obtained from each of the major sections of this report. The assessed factors are as follows:

- Financial condition covering various ratios
- Company background and operations size
- Promoters / Management background
- Payment record
- Litigation against the subject
- Industry scenario / competitor analysis
- Supplier / Customer / Banker review (wherever available)
