RATING & COMMENTS
(Mira Inform has adopted New Rating mechanism w.e.f. 23rd January 2017)

MIRA's Rating :	A+
------------------------	----

Credit Rating	Explanation	Rating Comments
A+	Low Risk	Business dealings permissible with low risk of default

Status :	Excellent
Payment Behaviour :	Regular
Litigation :	Clear
Comments :	<p>Kirloskar Brothers Limited is a part of the Kirloskar group, is India's largest manufacturer and exporter of pumps. The company caters to the oil and gas, Defence and marine, water resource management, irrigation, power, distribution, and construction sectors. The company was incorporated in the year 1920 and has its base in Pune (Maharashtra). It is a well-established company having a decent track record.</p> <p>For the financial year 2018, the company has increased its operational performance as compared to previous year and maintained average profit margin of 3.39%.</p> <p>The rating takes into consideration sound financial risk profile of the company marked by healthy net worth base and low debt level along with fair liquidity position.</p> <p>Rating also derives strength from company's leadership position in the domestic pump market along with a diversified revenue profile.</p> <p>Share price are quoted high on stock exchange (Share Price of INR 259.00 with face value of INR 2).</p> <p>As per quarter financials of September 2018, the company has achieved a sales turnover of INR 4,882.00 million and reported fair profit margin of 4.10%.</p> <p>However, rating strength is partially offset due to intense competition from unorganized players and imported pumps and large working capital requirements.</p> <p>Trade relations are reported as fair. Payments seems to be regular and as per commitments.</p>

	In view of established market position, the company can be considered good for normal business dealings at usual trade terms and conditions.

CORPORATE INFORMATION

The company is a public limited company domiciled in India and incorporated under the provisions of the Indian Companies Act. KBL is engaged in providing global fluid management solutions. The core products of the Company are Engineered Pumps, Industrial Pumps, Agriculture and Domestic Pumps, Valves, and Hydro turbines.

OPERATIONS OF THE COMPANY

The revenue from the operations for the year is INR 19,345.63 million, which is more than 6.12% compared to the previous year.

The Company is focusing on the Oil and Gas market as they see upgradation of existing refinery plants to BS IV has taken up speed. As a result, they have received prestigious orders from Oil India Limited. for FM/UL pumps and second order from BPCL Mumbai for LLC pumpset.

As the Goods and Service Tax (GST) roll out took place on July 1, 2017, the transition to the new tax regime had its expected initial impact on business and with majority of small customers like the Dealers and Retailers from Small Pump Business, the service centres and the customers from Building and Construction and Industry initially struggled to align their business processes with the new discipline. Dealers and Retailers took long to settle with the GST regulatory requirements. Business with contractors and Public Sector undertakings were also impacted.

During the year, the Company has commissioned largest bottom suction pump as a replacement to existing 80 (Eighty) years old make pump and motor at Kolkata Municipal Corporation.

The prestigious project of ERP Optimization and migration to the SAP S4 HANA platform, along with the required changes in 7 (Seven) major allied systems was driven by the core team along with the consultants and delivered on the agreed timelines. The Company went live on the new platform on October 9, 2017. With this, Kirloskar Brothers Limited (KBL) the first engineering equipment Company in India to go-live on the SAP HANA 1610 platform.

During the year, on international front, their representatives attended ATOMEXPO' 2017, business forum for global nuclear industry held recently at Moscow, Russia.

As a strategy to focus on the process segment, Industry Sector team has put up complete focus on networking with Global Process consultants for seeking approvals for chemical and process applications.

Irrigation sector successfully commissioned the Company's largest suspension length (30.3 Meters) vertical turbine pump at HNSS Pump Station in Andhra Pradesh.

In Small Pump Business, the sales team continued its focus on the market reach campaign through Retailer /

Plumber / Mechanic meets, Industrial customer visits and seminars. There is significant growth in such focused marketing efforts as compared to previous year.

Their Company's Sanand plant completed 5 (Five) years on June 17, 2017.

During the year, Kondhapuri plant was awarded Certificate of Excellence for the "Runner Up Performance in Energy Conservation" under Small Manufacturing Unit Category for year 2015-16. AECOM India's visit was successful and resulted in approval of the entire range of Company's valves for all their projects. A product conformity audit by Bureau Veritas was successfully completed for small and medium Butterfly valves at Kondhapuri. Kondhapuri plant completed development of larger size valves such as 2400 mm BFV, 1400 and 1800 mm turbine inlet valves, 1800 mm MDNRV etc. during the year.

Kondhapuri plant participated and got shortlisted in the 12th State Level Awards for Excellence in Energy Conservation and Management under SME category for Financial Year 2016-17 held on February 8, 2018 at MEDA (Maharashtra Energy Development Agency – Pune).

The Kirloskarvadi plant continued its growth and registered new highs on almost all parameters. Kirloskarvadi crossed INR 5,000 million dispatch till December 2017, the highest in last 5 (Five) years.

As a part of the drive of National Polio Eradication Programme, a Pulse Polio Campaign was organized for children under the age group of 5 (Five) years on January 28, 2018 at Kirloskarvadi.

The Company along with other reputed organizations having innovative and progressive HR practices in the area of Employee Benefits and Health, was invited to take part in the panel discussion on the subject. The Company was highly appreciated by industry forum leaders and it also emphasized Company's commitment to its employees' overall health and wellbeing.

KBL received the prestigious 'Golden Peacock HR Excellence Award' for the year 2017 in Industrial Manufacturing sector from former Chief Justice of India, Mr. M. N. Venkatachaliah at the 12th International CSR Conference on February 9, 2018 in Bengaluru.

KBL received the prestigious India Design Mark award for its Romak Pump, AT Pump, i-CM Pump, i-NS Pump and HYPN System.

Recommendation was received from Bureau Veritas for inclusion of Corporate Secretarial function for the first time in the scope of ISO 9001:2015 certification on the basis of recent surveillance audit. This was a voluntary initiative by Corporate Secretarial function to get itself certified for its few identified processes under ISO Certification.

The Company's RandD - Engineered Pumps (CRED) team participated and presented paper in 44th National Conference on 'Fluid Mechanics and Fluid Power-2017' held at Amrita University, Kollam, Kerala from December 14 to 16, 2017. The conference provided a platform for researchers, academicians, industrialist from around the globe to explore the vast potential of research and advancements in the field of Fluid Mechanics and Fluid Power.

During the year, KBL was associated as co-sponsor for Pune team, 'Puneri Paltan' in this year's Pro Kabaddi League. The Company was also co-sponsors for one of the eight teams participating in the Maharashtra Kusti Premier League (MKPL), an intra-state wrestling tournament organized by the Ahmednagar District Wrestling Association. This was a strategic decision taken in pursuit of nurturing local wrestling talent and providing them an ideal platform to compete with the world's best. More importantly, Company's association with a traditional sport like wrestling, which enjoys immense popularity among the masses, could help us expand Company's brand visibility and reach across the rural sector, i.e. the target audience for its Agriculture and Domestic pumps.

MANAGEMENT DISCUSSION and ANALYSIS

OUTLOOK

World's Economic Outlook

The global economy strengthened in 2017. As per the figures released by IMF in its latest world economic outlook released in April 2018, global output swelled by 3.8% in 2017.

A recent global survey released by McKinsey and Company in March 2018 has revealed that majority of the people in Latin America and emerging economies like India and China are optimistic about the current state of economy in their respective countries and expect growth momentum to gain traction over the next six months. Overall, the strengthening of the global economy has had a positive impact on the sentiments of people around the world. However, at the same time, many people in North America and Asia Pacific have also raised concerns over the expected trade decline between their home country and the Rest of the World (RoW).

Crude oil prices increased in 2017 due to factors like the decision to limit oil production as per OPEC+ agreement, geopolitical tension in the Middle East, the US weather events and improvement in the global growth outlook. This is likely to put pressure on countries that are dependent on imports of crude oil.

Indian Economic Outlook

Short-term hitches caused due to strong monetary policy measures had adverse effect on the growth pace of the GDP in 2017. India's GDP growth rate, as per IMF economic outlook released in April 2018, was estimated to be 6.7% in 2017 (as compared to 7.1% in 2016). These measures are likely to be beneficial in the long-term. As a result, India's 2018 GDP growth is likely to improve and reach 7.4% in 2018.

In this fiscal year, the Indian economic outlook received a major impetus as India jumped 30 spots in the World Bank's "Ease of Doing Business" Report over its 2017 ranking and is currently ranked 100th among the 190 countries listed in the 2018 edition of the report. Moody's upgraded India's sovereign bond rating after 14 years to Baa2 in view of the country's improved stable economic outlook.

Amongst the BRIC nations, the inflation rate recorded in India was the highest. The Consumer Price Index (CPI) inflation rate for 2017, as per IMF economic outlook released in April 2018, stands at 4.7% (as compared to 3.6% in 2016).

INDUSTRY STRUCTURE AND DEVELOPMENTS

World's Pump Market Outlook

EIF estimates that the global total pump market would be approximately valued at USD 53 billion by the end of 2018. Out of this the centrifugal pumps segment is expected to account for approximately 2/3rd of the overall consumer demand. Thus, the centrifugal pumps segment is expected to be valued at USD 33 billion.

The global centrifugal pumps market is expected to expand at a CAGR of 4.7% until 2027. Thus, this market is expected to be valued at approx. USD 50 billion by 2027.

Submersible pumps continue to be a major product type by sales revenue. The revenue share of this segment is expected to increase to 31% by 2027. This segment is expected to expand at a CAGR of 5.5% for the next 10 years. It is expected to be closely followed by the multi-stage and single-stage pump segments, which are estimated to expand at a CAGR of 5.2% and 3.9%, respectively, during the period 2017-2027.

Indian Pump Market Outlook

Currently, the Indian centrifugal pump market is estimated to be valued at INR 112900.000 million. The domestic centrifugal pump market is expected to expand at a CAGR (Compound Annual Growth Rate) of 10%+ in 2018.

The FY2018-19 budget promises investments in irrigation projects and aquaculture projects and has encouraged the state governments to purchase extra solar power generated by farmers using solar powered pumps. This is likely to lead to an increase in demand for small-sized standard centrifugal pumps like submersible and monoblock pumps.

Higher thrust on infrastructural development is expected to lead to increase in consumer demand for capital goods comprising pumps and systems required for municipal water supply and waste water treatment.

Government's thrust on use of renewable and nuclear source of energy is positive news for the manufacturers of highly engineered pumps required in nuclear and renewable power projects.

STRATEGY

Company Strategy and Policy

To be more competitive in terms of serving its customers and stakeholders, KBL plans to intensify its IT capabilities. In the previous fiscal year, as a part of its on-going endeavour, KBL introduced an automated CAPEX system to smoothen its capital expenditure approval process. This is likely to help in cost optimisation in the long-run. Furthermore, with the introduction of new business development apps, KBL expects to save a significant number of man-hours and increase the effectiveness of its sales processes.

This year, KBL also plans to increase its product range and upgrade effectiveness of its existing offerings. As a stepping stone in this direction, KBL recently introduced its KOSi pump series, primarily aimed at expanding its submersible product range.

Taking into consideration the recent developments in government policies, KBL sees a long-term business potential in the Indian nuclear industry. Over the years, KBL has made a mark for itself in the nuclear industry as one of the preferred global suppliers of a wide range of pumps used for various critical applications in power plants.

With its decades of experience and expertise, KBL is in a position to supply primary coolant pumps and other associated critical systems as part of the prestigious government initiative for building 10 indigenous pressurised heavy water reactors for boosting nuclear power generation in the country. In addition, N&NPT certification from The American Society of Mechanical Engineers (ASME) demonstrates their capabilities in the manufacture and supply of class 1,2 and 3 fabrications and pump components for nuclear applications,

KBL supports Government's and private organisations' increasing focus on infrastructure development and upgradation projects. Furthermore, the anticipated boom in the hotel industry is expected to pave the way for the construction of new properties, thereby leading to increase in demand for water management systems.

Demand for KBL pumps from sectors like steel industry, crude iron production, oil and gas, and chemical industry is expected to grow. The growth potential is likely to trigger plant expansion and upgradation of existing set-up from the respective industry players.

International Business Strategy

The business potential in the water and irrigation industries is rising due to increasing environmental concerns and its immediate impact on food sufficiency as well as availability of potable water for human as well as livestock consumption. Keeping this trend in mind, KBL is taking proactive efforts to further strengthen its position as a preferred provider of fluid management products and solutions in countries of Africa, South East Asia and Latin America.

The company's presence in key global markets through its subsidiaries in USA, UK, the Netherlands, South Africa and Thailand and sales offices has helped catapult its position as a trusted and reliable service provider while bidding for prestigious projects across the globe, KBL's continued emphasis on promoting and positioning its value-added products has led to the rise in sales of its products.

SBU / FUNCTION PERFORMANCE

Building and Construction

As compared to the previous year, KBL witnessed significant growth in terms of sales revenue as well as business booking. Growth was due to KBL's predefined strategy to promote valued added systems and services.

Their FM/UL service cell is currently executing Annual Maintenance Contracts (AMC) for more than 50 FM/UL systems. No other company offers such specialized premium services in India. KBL's consistent efforts in Bangladesh for last 3 years have yielded good results. During the period, the company's share in Bangladesh's FM/UL pump market strengthened. This is significant considering that the Bangladesh's market has been predominantly governed by the European and Middle-East brands.

In fiscal year 2017-18, KBL became the first company worldwide to introduce an online selection software for Multi-Stage Multi-Outlet (MSMO) pumps. During the year, the company introduced a new product FLD, a skid-mounted fire sprinkler pumping system for small and medium shops/offices/villas/bungalows. The product registered good response across the international market, especially Bangladesh.

Water Resource Management

2017-18 proved to be a successful fiscal year for KBL's water resource management department. This fiscal year, the product business witnessed appreciable jump in terms of product booking orders and sales revenue.

During the period, there was a significant rise in demand for KBL products like Auto-Prime, and LLC™, clearly reflecting the customers' trust in Kirloskar Brothers Limited. This department was also successful in winning various prestigious orders, including a 350+ pumps contract from Telengana Water-Grid and an order for auto-prime pumps for flood and disaster management from the Srinagar Municipal Corporation.

Irrigation

End-users and the contractors in this segment focus mainly on the initial capital cost and ignore the products' life cycle costs. Though KBL strives to be more cost-competitive, it also retains its product philosophy that focuses on high quality. A classic example of this philosophy at work is the supply of Vertical Turbine (VT) pump sets for the Pattiseema lift irrigation scheme. It was observed that the KBL pump sets consumed, on average, 197 kW lesser power than similar pump sets of a competitor. This higher efficiency of their pumps-sets is likely to help the client with annual savings up to INR 50.940 million. This estimated cost saving alone can help achieve a breakeven period of 4.5 years.

PRESS RELEASE

KIRLOSKAR BROTHERS GO TO NCLT AS RIFT WIDENS

Rahul Kirloskar and Atul Kirloskar want brother Sanjay Kirloskar removed as chairman and managing director of Kirloskar Brothers Limited

Mon, Oct 29 2018

Mumbai: Cracks in the Kirloskar family, which controls the 130-year-old Kirloskar Group, have widened. Brothers Rahul Kirloskar and Atul Kirloskar have approached the Mumbai bench of the National Company Law Tribunal (NCLT) to oust sibling Sanjay Kirloskar as chairman and managing director of Kirloskar Brothers Ltd, alleging oppression and mismanagement in the group's flagship company. They are also seeking the removal of the rest of the current board members and have sought the appointment of their own nominees on the board.

In their petition, Atul Kirloskar and Rahul Kirloskar have alleged that while the board has been arbitrarily rejecting their pre-clearance request for selling or buying shares, Sanjay Kirloskar has been increasing his shareholding in the company.

BSE-listed Kirloskar Brothers Limited' code of conduct for promoters and other key management personnel requires them to take the board's clearance before buying or selling the company's shares.

"(The board is) coercing petitioner No. 2 (Rahul) to only sell the shares to respondent No. 2 (Sanjay) under the false pretext of deed of family settlement (DFS)," says the petition, a copy of which was reviewed by Mint. "Respondent No. 2 has repeatedly misused his position of being the chairman and MD of Kirloskar Brothers and acted in the manner prejudicial not only to the interest of the petitioners (Rahul and Atul) but also detriment of the Respondent No. 1 (Kirloskar Brothers)."

The Kirloskar promoters had entered into a DFS in 2009 to distribute their assets in the form of shares of various companies in Kirloskar Group and cash held in trust and investment companies, among the signatories of DFS, to avoid a potential dispute within the family.

Rahul and Atul now claim, through the petition, that the board's continuing rejection of their pre-clearance request contravened the letter and spirit of the DFS.

"The DFS does not contain any fetters on any of the signatories to either buy or sell shares in any of the companies mentioned therein or any right such as right of first refusal, pre-emption or right of the first offer etc. that may compel any of the parties to buy or sell shares to/from one another," the petition says. "There is no such restrictive covenant in the DFS."

Rahul and Atul, who are into the business of renewable energy and investments through listed company Kirloskar Industries Ltd (KIL), are now seeking the appointment of an independent chairman or administrator as well as petitioners' nominees on the board of Kirloskar Brothers.

The petitioners have named, apart from Kirloskar Brothers and Sanjay Kirloskar, other Kirloskar Brothers board members as respondents. The Kirloskar Brothers board currently includes Lalita D. Gupte, former joint managing director at ICICI Bank and Kishor A. Chaukar, former managing director of Tata Industries Ltd. Former Reserve

This Report is prepared and issued to the Subscriber without any risk, responsibility or liability on the part of MIPL or its officials.

Bank of India (RBI) deputy governor Rakesh Mohan is an independent director but is not named in the petition. It is possible he joined Kirloskar Brothers after the petition was drawn up.

The petition also requests the tribunal to appoint an independent auditor to conduct a forensic audit of Kirloskar Brothers's books of accounts and affairs till the pending hearing and final disposal of the case. The estranged brothers are also seeking the tribunal's intervention to allow them to buy or sell shares; the petitioners had made three pre-clearance requests from Kirloskar Brothers, all of which had been rejected.

The Mumbai bench will hear the case on 17 December.

In June, Sanjay Kirloskar petitioned the Pune city civil court against Atul, Rahul, cousin Vikram and late cousin Gautam Kulkarni's family, alleging breach of DFS, and sought damages of INR 7500.000 million from the family members.

Founded by Lakshman Rao Kirloskar, the Kirloskar Group is one of the earliest Indian engineering conglomerates. Later, his three sons, Shantanu, Prabhakar and Ravi Kirloskar took over the group's reins.

Shantanu Kirloskar has three children, Chandrakant, Sarojini Amin and Srikant. Atul, Sanjay and Rahul are part of the Chandrakant Shantanu Kirloskar Hindu Undivided Family, which entered into a formal DFS in 2009, along with other Kirloskar family members.

CMT REPORT (Corruption, Money Laundering & Terrorism]

The Public Notice information has been collected from various sources including but not limited to: ***The Courts, India Prisons Service, Interpol, etc.***

1] INFORMATION ON DESIGNATED PARTY

RATING EXPLANATIONS

Credit Rating	Explanation	Rating Comments
A++	Minimum Risk	Business dealings permissible with minimum risk of default
A+	Low Risk	Business dealings permissible with low risk of default
A	Acceptable Risk	Business dealings permissible with moderate risk of default
B	Medium Risk	Business dealings permissible on a regular monitoring basis
C	Medium High Risk	Business dealings permissible preferably on secured basis
D	High Risk	Business dealing not recommended or on secured terms only
NB	New Business	No recommendation can be done due to business in infancy stage
NT	No Trace	No recommendation can be done as the business is not traceable

NB is stated where there is insufficient information to facilitate rating. However, it is not to be considered as unfavourable.

This score serves as a reference to assess SC's credit risk and to set the amount of credit to be extended. It is calculated from a composite of weighted scores obtained from each of the major sections of this report. The assessed factors are as follows:

- Financial condition covering various ratios
- Company background and operations size
- Promoters / Management background
- Payment record
- Litigation against the subject
- Industry scenario / competitor analysis
- Supplier / Customer / Banker review (wherever available)
