BACKGROUND AND OPERATIONS

The Company, headquartered in Mumbai, Maharashtra, India, carries on business in branded consumer products. Marico manufactures and markets products under the brands such as Parachute, Parachute Advanced, Nihar, Nihar Naturals, Saffola, Hair & Care, Revive, Mediker, Livon, Setwet etc. Marico's products reach its consumers through retail outlets serviced by Marico's distribution network comprising regional offices, carrying & forwarding agents, redistribution centers & distributors spread all over India.

REVIEW OF OPERATIONS

During FY 18, Marico posted revenue from operations of INR 63330.000 Million, a growth of 7% over the previous year. Volume growth for the year was at 1.3%. The value growth was led by price increases taken in the Coconut Oil portfolio to counter the significant input cost push during the year. The business delivered an operating margin of 18% and reported a bottom line of INR 8140.000 Million, a growth of 2% over the last year.

Marico India, the domestic FMCG business, achieved a turnover of INR 49690.000 Million in FY18, a growth of 9% over the last year. Volume growth for the year was 1.5%. The value growth was led by price increases in the Coconut Oil portfolio. Annual volume growth this year was dampened by destocking in trade prior to GST implementation, which led to a sharp volume decline across portfolios in Q1 FY18, and a subdued year for Saffola Edible Oil. The operating margin for the India business was at 21.3% (before corporate allocations) versus 24.3% in FY17. Lower operating margins can be attributed mainly to gross margin contraction on account of the severe input cost push during the year.

During the year, Marico International, the International FMCG business, posted a turnover of INR 1,364 Crores, a growth of 1% over the last year. The business reported a 9% constant currency growth (volume growth of 1%) during the year. The operating margin for the year was at 16.6% (before corporate allocations) reflecting a sustained structural shift over the last few years from levels of below 10%.

There are no material changes and commitments affecting the financial position of your Company, which have occurred between the end of the FY18 and the date of this report.

Further, there has been no change in the nature of business of the Company.

BUSINESS OUTLOOK

For FY19 and beyond, we retain the target of 8-10% volume growth in India accompanied by healthy market share gains. Accelerated innovation and our focus on Digital will be strong enablers. In the international business, while we will aim for a breakthrough performance in Bangladesh, we will also direct our efforts towards establishing a stable and predictable growth trajectory in the rest of the business, thereby delivering double-digit constant currency growth on an overall basis, in the medium-term.

While driving growth, we will continue to retain our focus on best-in-class governance, risk management and talent acquisition and development.

Given the stable macro environment and early forecasts of a normal monsoon, we hope for healthy consumption growth, especially in the rural segment. The Government's thrust on improving farmer disposable incomes should further provide the much needed fillip to rural consumption.

While the current inflationary input cost environment may impact profitability in the first half, we believe that focus on franchise expansion with threshold margins will stand us in good stead to write a medium-term profitable growth story.
