BUSINESS FOCUS AND HIGHLIGHTS: (As on 31.03.2016)

FY 15/16 has been a year of new technology for BFW, wherein they have been successful in their entry into the Turning business, and able to establish their presence through a complete range of solutions from compact to heavy-duty turning centres. Few of their products in this range especially in the PL-series have received encouraging market acceptance, and this has translated into spurt in order input for BFW.

FY 15/16 has also been the year wherein BFW has made several strategic customer acquisitions in both Government and Private Sector Undertakings. To grow their regional presence and to support local customers through applications and services, they have established two new Tech Centres first in Kolhapur and then in Ahmadabad with close support from their local partners in these areas.

Going forward into FY 16/17 their focus would be primarily on increasing their footprints regionally through expanding their presence in key markets, and through expanding new product technologies particularly in HMCs.

During the year, products from Orion HMC series were placed at strategic customers and the response from the customer was closely monitored and was found to be very positive. They expect Orion product line to successfully win over imported machines of well known brands. Thus a major gap in HMC portfolio is getting filled up.
