MIRA's Rating :	C
------------------------	----------

Credit Rating	Explanation	Rating Comments
C	Medium High Risk	Business dealings permissible preferably on secured basis

Status :	Moderate
Payment Behaviour :	Slow and delayed
Litigation :	Exists
Comments :	<p>Subject was incorporated in the year 1970 and it is engaged in manufacturing of steel products, engineering equipment and executing turnkey projects.</p> <p>As per the financials of March 2018, the company has registered a decline in its revenue as compared to its previous year's revenue and has reported losses.</p> <p>Rating takes into consideration the company's accumulated previous year's losses which led to erosion of net worth and weak financial risk profile.</p> <p>Rating also takes into account the ongoing slowdown in steel industry and stressed liquidity position.</p> <p>As per unaudited quarterly financials of June 2018, the company has achieved a revenue of INR 6826.700 million from its operations and has incurred losses.</p> <p>Payments terms seems to be slow and delayed.</p> <p>In view of aforesaid, the subject can be considered for business dealings at fully secured trade terms and conditions.</p>

NOTE:

The Registered office of the company has been shifted from Trade World, 'C' Wing, 16th Floor, Kamala City, Senapati Bapat Marg, Lower Parel, Mumbai - 400013, Maharashtra, India, to the present address.

PERFORMANCE

The Company achieved a Gross Turnover of INR 27042.100 Million in 2017-18 as against INR 37719.000 Million in the previous year, showing a declined by 28.31 % over previous year. The operating Loss before Interest, Depreciation and Tax for the year was INR 889.500 Million as against INR 1055.300 Million in the previous year showing an improvement of 15.72%. The Company posted a loss of INR 4658.200 Million during the year as against a loss of INR 5098.200 Million in the previous year after providing depreciation of INR 1375.400 Million (Previous year INR 1453.800 Million). During the year there were no changes in the nature of business of the Company, the detailed discussion on Company's overview and future outlook has been given in the section on 'Management Discussion and Analysis' (MDA).

The Company has witnessed a serious down turn in the past few years and there have been a global recessionary condition in the world economy. The Company's performance was also affected due to unfavorable volatility in the foreign exchange rates, sluggish demand in the Indian Steel industries, dumping of steel products from China, Japan and South Korea. Consequently, the steel industries in India suffered severe financial crises due to which the company also could not have stay immune to the same. Realizing the precarious and disadvantageous position of the steel industry in the country, the Government of India in September 2015 imposed a 20% safe guard duty on import of hot rolled coils. However, by the time Government initiated steps to protect the steel market steel product price have already reached deep lows and the government measures did not provide any reasonable support to the company to cop up with these challenges.

Additionally, dumping of Chinese steel in Indian market in the Financial Year 2015-16 which resulted worst for the company and as a result the company could not resist the down turn pressure any further and this eventually resulted in delayed payment to the lenders.

Even after initiating several measures like cost cutting, meeting with Joint Lenders Forum (JLF) and despite various other steps, the company could not prevent itself for becoming Non Performance Asset (NPA) and accordingly the JLF declared their account as NPA.

This has resulted into lack of working capital, volatility in foreign exchange rates, and non-support from suppliers and customers on account of initiation of Insolvency proceedings by State Bank of India (SBI) against the company as financial creditors.

MANAGEMENT DISCUSSION AND ANALYSIS

STEEL INDUSTRY SCENARIO

Steel Industry plays a vital role in the development of any modern economy and is considered to be a yardstick to measure the level of socio-economic development and living standard of its countrymen. Steel industry derives its demand from other important sectors like infrastructure, aviation, engineering, construction, automobile, pipes and tubes, etc. Thus, its intense integration with other important industries makes it a strategic sector for the Governments as well. The Indian economy is currently poised for its next wave of growth supported by the recent reforms launched by the government, showing a tremendous opportunity for the steel industry to grow exponentially. The Indian Steel market has witnessed growth in both production and consumption. Steel production in India have grown by 5.7% in January 2018 as compared to January 2017. Indian Domestic steel consumption also rose by 6.8% in 2017-18 as compared to 2016-17. The demand driven by rising infrastructure development, growing demand for automotive, construction, housing and ground transportation, special steels in engineering industries such as power generation, petrochemicals and fertilizers is expected to continue through 2018-19.

The Indian steel sector enjoys advantages of domestic availability of raw materials and cheap labour. Iron ore is also available in abundant quantities, though the continued mining restrictions have put a strain on its availability as well as price. This abundance has been providing a major cost advantage to the domestic steel industry.

OUTLOOK

The steel industry with the roll out of the National Steel Policy-2017, it is envisaged that the industry will be steered in creating an environment for promoting domestic steel and thereby ensuring a scenario where production meets the anticipated pace of growth in consumption, through a technologically advanced and globally competitive steel industry. This will be facilitated by Ministry of Steel, in coordination with relevant Ministries, as may be required. To accomplish PM's vision of 'Make in India' Policy for providing preference to domestically manufactured Iron and Steel products in Government procurement was approved on 3rd May, 2017. The policy is envisaged to promote growth and development of domestic steel Industry and reduce the inclination to use, low quality low cost imported steel in Government funded projects. They hope that every Government Agency would take the responsibility and ensure for implementation of this policy. India's average Gross Domestic Product (GDP) growth has been estimated to grow by 7.4 per cent in 2017-18 and 7.8 per cent in 2018-19, up from 7.1 per cent in 2016- 17.

According to World Steel Association, the demand of steel in India is expected to grow by 5.7% in 2018 against a global growth in demand of 1.6% in 2018.

**LENDERS KEEN TO OFFER UTTAM GALVA UNITS TO SINGLE BIDDER
JULY 02 2018**

Uttam Value Steels and Uttam Galva Metallics owe INR 32000.000 Million and INR 22000.000 Million, respectively, to banks

Mumbai: The resolution process of Uttam Value Steels Limited (UVSL), which was admitted for insolvency proceedings on 26 June, may have to wait till there is more clarity on the status of insolvency proceedings against Uttam Galva Metallics Limited (UGML), two people aware of the development said. Both companies are subsidiaries of Uttam Galva Steels Limited.

Uttam Value Steels and Uttam Galva Metallics owe banks INR 3,200 crore and INR 2,200 crore, respectively. "Uttam Galva Metallics and Uttam Value Steels are integrated facilities although they operate as separate legal entities," said the first of the two people cited above. "The lenders could face difficulty in attracting buyers if both plants are not offered together."

UGML manufactures pig iron from iron ore, which is a raw material for intermediate products for manufacturing value-added steel. The entire hot metal production of UGML is supplied to UVSL located close to it the same day. The company also has a captive power plant, which addresses almost 100% of its power generation demand.

State Bank of India (SBI) had approached the National Company Law Tribunal (NCLT) seeking bankruptcy proceedings against both companies, but NCLT while admitting the insolvency plea of Uttam Value Steels has reserved its order on Uttam Galva Metallics till 11 July. An email query sent to SBI, the leader of the consortium of banks, and to Rajiv Chakraborty, the interim resolution professional (IRP) appointed for Uttam Galva Steels, remained unanswered until press time.

Earlier, the subsidiaries of debt-laden Uttam Galva Steels had argued that Ziraat Bankasi, the second-largest state-owned bank of Turkey, had written to SBI that one of its high net worth clients was interested in acquiring its

assets. Earlier, on 6 June, another bench of NCLT had adjourned the insolvency plea of Uttam Galva Steels to 16 July, following requests from the company as well as its lenders.

UVSL's plant was commissioned in 1995 in Wardha, Maharashtra. It has a rolling mill with an installed capacity of 1 million tonnes per annum (mtpa) of hot rolled coil, along with steel melting shop to produce 1.08mtpa of steel through the electric arc furnace route. Its downstream facilities include cold rolled coil mill (0.38mtpa capacity) and galvanized plain/galvanized corrugated sheets/coil line (0.25mtpa capacity). Its engineering division is located at Murbad in Maharashtra's Thane, and is engaged in steel fabrication, design and manufacturing of heavy equipment for hydrocarbon, oil and gas, steel and power plants as well as executing projects on a turnkey basis.

Mint reported earlier that the National Company Law Appellate Tribunal (NCLAT) is expected to hear a petition on the insolvency resolution of Essar Steel Limited. ArcelorMittal India Pvt. Limited—which is a key contender for the company and a former shareholder in Uttam Galva Steels Limited—has deposited INR 70000.000 Million in an escrow account to qualify for the bidding.

If NCLAT declares ArcelorMittal eligible, the money in the escrow account will go towards settling Uttam Galva's debt, but is unlikely to impact the ongoing bankruptcy of UVSL. Mint reported in October 2017 that AION Capital, a special situations fund, had submitted a bid to acquire a majority stake in Uttam Galva Steels, proposing to recast the company's outstanding debt of close to INR 55000.000 Million into four parts, but the lenders had rejected the offer.
