SWEDEN - ECONOMIC OVERVIEW

Sweden's small, open, and competitive economy has been thriving and Sweden has achieved an enviable standard of living with its combination of free-market capitalism and extensive welfare benefits. Sweden remains outside the euro zone largely out of concern that joining the European Economic and Monetary Union would diminish the country's sovereignty over its welfare system.

Timber, hydropower, and iron ore constitute the resource base of a manufacturing economy that relies heavily on foreign trade. Exports, including engines and other machines, motor vehicles, and telecommunications equipment, account for more than 44% of GDP. Sweden enjoys a current account surplus of about 5% of GDP, which is one of the highest margins in Europe.

GDP grew an estimated 3.3% in 2016 and 2017 driven largely by investment in the construction sector. Swedish economists expect economic growth to ease slightly in the coming years as this investment subsides. Global economic growth boosted exports of Swedish manufactures further, helping drive domestic economic growth in 2017. The Central Bank is keeping an eye on deflationary pressures and bank observers expect it to maintain an expansionary monetary policy in 2018. Swedish prices and wages have grown only slightly over the past few years, helping to support the country's competitiveness.

In the short and medium term, Sweden's economic challenges include providing affordable housing and successfully integrating migrants into the labor market.

RATING EXPLANATIONS

Credit Rating	Explanation	Rating Comments
A++	Minimum Risk	Business dealings permissible with minimum risk of default
A+	Low Risk	Business dealings permissible with low risk of default
A	Acceptable Risk	Business dealings permissible with moderate risk of default
B	Medium Risk	Business dealings permissible on a regular monitoring basis
C	Medium High Risk	Business dealings permissible preferably on secured basis
D	High Risk	Business dealing not recommended or on secured terms only
NB	New Business	No recommendation can be done due to business in infancy stage
NT	No Trace	No recommendation can be done as the business is not traceable

NB is stated where there is insufficient information to facilitate rating. However, it is not to be considered as unfavourable.

This score serves as a reference to assess SC's credit risk and to set the amount of credit to be extended. It is calculated from a composite of weighted scores obtained from each of the major sections of this report. The assessed factors are as follows:

- Financial condition covering various ratios
- Company background and operations size
- Promoters / Management background
- Payment record
- Litigation against the subject
- Industry scenario / competitor analysis
- Supplier / Customer / Banker review (wherever available)
