## PERFORMANCE OVERVIEW

While Indian Economy had started showing signs of stability in some sectors by mid of Financial year 2016-17, though not much in industry the sectors The Company is operating, primarily because of long project execution cycle time in these sectors, by reason of its highly engineered and technological nature, demonetisation of large value currency notes of INR 1000 and INR 500, disrupted the supply chain both in inputs for manufacturing as well as in getting finished goods delivered to Customer sites, spread across the entire Republic of India. While The Company entirely undertakes structured business in Organized Sectors and had no direct impact of demonetisation, this disruption in movement of goods across various State borders resulted in delays in processing of orders, stress in liquidity / cash flow and in delays in finalization of projects / tenders at Prospective Customers' end. Consequently The Company has around 14% drop in Sales Revenue during the financial year, but were able to maintain profit level, compared to previous financial year. The order intake for the corresponding period was also less by around 10-12%. Yet The Company's order backlog as on 1st April 2017 is over INR 3250.000+ Million, signalling a robust growth of over 15% in invoicing can be achieved for The Company in the financial year 2017-18.

Looking at the overall Global scenario and a period of transformation emanating from various policies of Central Government, we continued focus on the initiatives, we started previous years.

- i) Realisation of outstanding due payments
- ii) Cost Management through better utilisation of resources to result in overall cost reduction as a percentage of revenue;
- iii) Continued thrust on development of new products and new applications.
- iv) Reach out to New Customers, particularly in Far East and Africa to realise the Company's stated goal of 20% of year-on-year revenue from exports from Fiscal Year 2018-19
- v) Restructuring the Operations to become more efficient and economical.  
and
- vi) Getting manufacturing operations at Pune facility for valves commercialized and marketing activities streamlined.

The Company is now well equipped both by way of capability and capacity to 'Go Global'. The company has attained a gross income of INR 3780.000 crores in the current year and is poised to clock Gross income of over INR 4500.000 + million, during 2017-18 with GST Act in operation from July 2017. The Company was able to retain profit after tax during the year at the same level as previous year.

The Company's diversified portfolio – from product and system sales to projects to turn-key contracts, have helped the Company to retain its leadership position in Automation in the Country. Turn-key contracts of National importance; Energy Dispatch & Distribution Management as well as Automation of Petroleum Products Terminals and providing solutions to Petroleum Refining Processes in meeting targeted throughput, environment, safety as well as energy efficiency norms constituted most of the sales revenue for the year. The Company has also ventured into Solar Power generating projects.

The pending order book position as on 1st September, 2017 is INR 4140.000+ million, indicating the company can endure successfully the recessionary trend looming in the Capital Goods Sector.

The Company retained its International Certificate of Quality for Product lines/Systems, more specifically ASME – U, R, N Stamps and PED, CE markings apart from ISO: 9001:2008. The Company is also a qualified Vendor for Analyser Systems and Custody Transfer Metering Skids

for PDO (Petroleum Development Oman) apart from other major oil companies like GASCO, Petrofac, Kuwait Oil, ADCO etc. in the Middle East. The Company has executed and successfully commissioned custody transfer Gas Metering job for Customer in Oman and Analyser System job for Takreer, Abu Dhabi.

The Directors have great pleasure to inform you, the wholly owned subsidiary of the Company, under the name and style “Chemtrols Middle East FZE” is fully operational.

The Company has executed export orders over USD 3.10.Million for Process Instruments, Metering and Analytical Systems during the year.

The Company, this year also has executed many complex jobs as well as secured many large value jobs for execution in the coming year i.e. 2017-18. Few noteworthy projects Business Unitwise are:

#### **BU1 Process Analytics**

The Company is pleased to inform completion of execution of Major Process Analytical Systems jobs awarded by Reliance Industries for their J3 Project; Paraxylene, Refinery OffGas Cracker, LLDPE, LDPE, SNG, MEG, ASU and SRU units. It is a matter of Great Pride for The Company that the Process Analyser System supplied to MEG Project encompassing the largest Analyser Shelter ever made; 22+ Metre Long and 6+ Meter Wide, weighing nearly 50 tonnes is commissioned satisfactorily. Scope included Design, Engineering, System Integration, Testing, FAT and site work of the supplied systems which included Analyser House, HVAC, Safeguarding PLCs, Fire & Gas Detection systems and Analyser Management Network systems.

A Unique Process Analyser System Project for Hydrogen Plant of AIR PRODUCTS USA executed at BPCL – Kochi Refinery, involving installation in field mounted three-sided shelter is commissioned. The Company has executed another Analyser System job through Engineers India for Sulfur Recovery Unit at BPCL Kochi.
