FINANCIAL PERFORMANCE

Net sales and services increased by 14.3% to INR 49810.000 Million.

Operating EBIDTA grew by 10.6% to INR 3450.000 Million.

Because of a significant increase in finance costs in FY2018, operating PBT (excluding other income) reduced from INR 570.000 Million in FY2017 to INR 290.000 Million in FY2018. Including 'other income', PBT reduced from INR 2570.000 Million in FY2017 to INR 2270.000 Million in FY2018. The increase in finance cost was on account of larger loans taken in India to finance the losses in some international operations.

During the quarter ended 31 March 2018, the Company examined the recoverability of certain overdue / non-recoverable assets and, after analysis, chose to write these off. These have been accounted for as exceptional items amounting to INR 4530.000 Million which also include provision for litigation claims, advances given to subsidiaries and related foreign exchange gain / loss.

Because of the size of the write off on account of exceptional items, net profit for the year swung from a profit of INR 1250.000 Million in FY2017 to a loss of INR 3250.000 Million in FY2018.

Net profit from continuing operations decreased from a profit of INR 1460.000 Million in FY2017 to a net loss of INR 2730.000 Million in FY2018.

Cash profit from continuing operations increased from INR 2830.000 Million in FY2017 to INR 3010.000 Million in FY2018.

Net loss from discontinued operations was INR 520.000 Million in FY2018 versus INR 210.000 Million in the previous financial year.

MANAGEMENT DISCUSSION AND ANALYSIS

CG Power and Industrial Solutions Limited ('CG' or 'the Company'), which is the erstwhile Crompton Greaves Limited after spinning off its consumer business, is a pure B2B company spanning two major businesses. These are:

(i) The Power Systems business unit, involving power transmission and distribution equipment and system solutions that cover many differentiated products and services from ultra-high voltage (UHV), high voltage (HV), medium voltage (MV) and low voltage (LV).

(ii) The Industrial Systems business unit, consisting of rotating machines (motors and alternators) across a wide spectrum of power and ratings, automated AC, DC and variable frequency drives and control systems as well as traction electronics and machines, signalling and coach products and integrated solutions for railway transportation.

Customers consist of major utilities and industries across the globe spanning various sectors such as power generation, transmission, distribution and renewables, oil and gas, cement, metals and mining, and in railways and transportation.

Each of the two business units (BUs), Power and Industrial Systems, is treated as a profit centre and is responsible for generating revenue growth, profitability and capital efficiency.

OUTLOOK

It is useful to begin with the legacy of the past. As they have discussed in the last few annual reports, CG suffered from losses incurred by some of its international operations – which needed to be made good by regular cash outflows from the parent company.

Given these circumstances, the Board of Directors favoured selling these loss-making businesses at reasonable enterprise value to focus on Cg's profitable core competency – one of producing transformers and industrial systems out of profitable plants in India and Indonesia, and of selling these in India as well as to other parts of the world.

Thus, CG divested itself of the power transformer business in Canada in FY 2016: Sold the automation business under ZIV to Alfanar Electric LLC of Saudi Arabia in March 2017; and exited from the distribution franchise business at Jalgaon, Maharashtra. In FY 2018, they sold the company's wholly owned power business in the USA to WEG, a major Brazilian multinational in electric motors and other electro products, for an enterprise value of US\$37 million. This divestment was completed on 31 July 2017. And as they write, efforts are on to sell the company's Hungarian business, excluding switchgears.

That was the pruning of loss-making or relative unprofitable businesses. What about the company's core businesses, namely power systems in India and Indonesia and its industrial systems business in India.

These have done well in FY 2017 and FY 2018. Order input has risen in FY 2018 compared to the previous year, as has net sales, EBIDTA and the asset efficiency ratios. For the standalone entity covering Indian operations, the ratio of EBIDTA (with other income) to net sales stood at 10.9% in FY 2018. In sort, over the last two years, CG has become a leaner, better managed and a more profitable enterprise.

Adopting Ind As also helped CG to generate a cleaner and tighter balance sheet. This year, the Company's management, its Risk and Audit Committee and Board of Directors decided that a further cleaning up was needed. This related to provisions for litigation claims, other advances and overdue inventories. The Risk and Audit Committee and the Board of Directors chose to write these off. These have been accounted for as exceptional terms (net) amounting to INR 4430.000 Million.

Although these exceptional items imposed a non-cash cost on the profit and loss accounts of both the standalone and consolidated entities, they believe that this clean-up was warranted. It has, over a longer term, helped to create a more sustainable financial architecture and a tighter balance sheet.

CG POWER AND INDUSTRIAL SOLUTIONS LIMITED - 530637

PAGE NO. : 33

Operationally, CG India has done well Power transformers are on a stable footing, and distribution transformer sales and profitability continue to rise. Motors are doing very well. And CG has performed excellently in securing its highest ever orders from Indian Railways.

The Indonesia operations have also done well. Even the Belgian power transformer and systems operations, though still treated as discontinued, have turned around.

Therefore, if they can completed the Hungarian investment and some other relatively minor sales of overseas entities, and if the Indian economy grows at 7% per year or more as predicted by the Reserve Bank of India. They ought to see even better operational and financial performance of CG in FY 2019.
