RATING & COMMENTS

(Mira Inform has adopted New Rating mechanism w.e.f. 23rd January 2017)

MIRA's Rating :	B
------------------------	---

Credit Rating	Explanation	Rating Comments
B	Medium Risk	Business dealings permissible on a regular monitoring basis

Maximum Credit Limit :	USD 10103100
Status :	Moderate
Payment Behaviour :	Slow and delayed
Litigation :	Exist
Comments :	<p>Subject was incorporated in the year 1995 and it is engaged in providing wind energy solutions. It offers designing, developing and selling of wind turbine generators of different capacities and its components. The firms also engaged in sale and sub-lease of land, infrastructure development, gearboxes, foundry and forging components and power generation.</p> <p>As per the quarterly results of June 2018, the company has achieved sales turnover of INR 7619 million.</p> <p>For the financial year ended March 2018, the company has reported a decline in its revenue as compared to the previous year and has incurred losses.</p> <p>The company has sound capital structure. However, rating is constrained on account of negative reserve base and high debt balance sheet profile.</p> <p>Business is active. Payment seems to be slow and delayed.</p> <p>In view of aforesaid, the company can be considered for business dealings with some caution.</p> <p>NOTE: On April 27, 2016, the board of directors of the Company had approved a composite scheme which comprised of merger of its three wholly owned subsidiaries, namely, SE Blades Limited ('SEBL'), SE Electricals Limited</p>

	<p>('SEEL') and Suzlon Wind International Limited ('SWIL') in the Company, with effect from January 1, 2016 (being the appointed date for merger) and demerger of tower business from wholly owned subsidiary, Suzlon Structures Limited ('SSL') (now known as Suzlon Global Services Limited) ('Scheme') with the Company, with effect from April 1, 2016 (being the appointed date for demerger).</p> <p>This Scheme has been approved by the Honorable National Company Law Tribunal, Ahmedabad Bench on May 31, 2017 and the Company has incorporated the accounting effects in its books of accounts as per the accounting treatment prescribed in the Scheme which is in compliance and accordance with the accounting standards applicable to the Company as of the appointed date of the Scheme.</p>

	SHORT TERM BORROWINGS		

Working capital facilities from banks (secured)	37667.400	19757.000
Total	59903.900	43686.900

Notes:

a) Corporate debt restructuring (CDR)

During the financial year ended March 31, 2013, Suzlon Energy Limited ('SEL') along with its identified domestic subsidiaries and a joint venture collectively referred to as the 'Borrowers' and individually as the 'Borrower', had restructured various financial facilities (restructured facilities) from the secured CDR lenders under the Corporate Debt Restructuring Proposal. Pursuant to approval of CDR Package by the CDR Empowered Group ('CDR EG'), the implementation of the CDR package was formalised upon execution of Master Restructuring Agreement (MRA) between the CDR Lenders and Borrowers during the financial year ending March 31, 2013. The MRA inter alia covers the provisions to govern the terms and conditions of restructured facilities.

The key features of the CDR package are as follows:

- i. Repayment of Restructured Term Loans ('RTL') after moratorium of 2 years from cut-off date in 32 structured quarterly instalments commencing from December 2014 to September 2022. The moratorium period of 2 years has expired on September 30, 2014.
- ii. Conversion of various irregular / outstanding / devolved financial facilities into Working Capital Term Loan ('WCTL') and the repayment terms of which are in similar to that of RTL with enabling mandatory prepayment obligations on realisation of proceeds from certain asset sale and capital infusion.
- iii. Restructuring of existing fund based and non-fund based working capital facilities, subject to renewal and reassessment every year.
- iv. Unpaid Interest due on certain existing facilities on cut-off date, interest accrued during the moratorium period on RTL and WCTL and interest on fund based working capital facilities for certain period were to be converted into Funded Interest Term Loans ('FITLs') and which were to be converted into equity shares of the Company.
- v. The rate of interest on RTL, WCTL, FITL and fund based working capital facilities were reduced to 11.00% per annum with reset option in accordance with MRA.
- vi. Waiver of existing events of defaults, penal interest and charges etc. in accordance with MRA.
- vii. Contribution of INR 2500.000 Million in SEL by promoters, their friends, relatives and business associates as stipulated, conversion of existing promoter's loan of INR 1450.000 Million into equity shares / CCDs at the price determined in compliance with Securities and Exchange Board of India.

Other key features of the CDR Package are:

- i. Right of Recompense to CDR Lenders for the relief and sacrifice extended, subject to provisions of CDR Guidelines and MRA and;

ii. SEL to issue equity shares in lieu of sacrifice of the CDR Lenders for the first three years from cut-off date at the price determined in compliance with Securities and Exchange Board of India, if exercised by CDR lenders.

In case of financial facilities availed from the non-CDR Lenders, the terms and conditions shall continue to be governed by the provisions of the existing financing documents.

During the financial year ended March 31, 2015, the restructuring proposal with Power Finance Corporation ('PFC') which is a non-CDR lender was approved by CDR EG. As per the terms of restructuring, the PFC has converted certain portion of interest accrued into FITL I and FITL II. Repayment of outstanding term loan would be in accordance with terms and conditions similar to those of RTL, whereas repayment of FITL I would be made in 32 equal quarterly instalments and should be co-terminus with RTL. Repayment of FITL II would be made in 12 quarterly instalments from December 2022 to September 2025. To give effect to the restructuring a bilateral agreement between the Borrower and PFC was entered into on August 12, 2015.

b) The details of security for the current and non-current secured loans are as follows:

i) In case of financial facilities from CDR lenders in accordance with MRA and non-CDR lenders, RTL, WCTL, FITL aggregating INR 23928.600 Million (previous year: INR 23969.100 Million) of which INR 21755.000 Million (previous year: INR 23364.100 Million) classified as long-term borrowings and INR 2173.600 Million (previous year: INR 605.000 Million) classified as current maturities of long-term borrowings, fund based working capital facilities of INR 22760.800 Million (previous year: INR 15120.300 Million), and non-fund based working capital facilities are secured by first pari passu charge on all chargeable present and future tangible / intangible movable assets of each of the Borrowers, first charge on all chargeable present and future immovable assets (excluding the identified properties) of each of the Borrowers, first charge on all present and future chargeable current assets of each of the Borrowers, first charge over Trust and Retention Account ('TRA') and other bank accounts of the Borrowers, pledge of equity shares held by SEL in its identified domestic subsidiaries and a joint venture which are forming part of the Borrowers, negative lien over the equity shares held by SEL in SE Forge Limited, pledge on shares of Suzlon Energy Limited, Mauritius ('SELM') held by SEL, negative lien over the equity shares of certain overseas subsidiaries of SEL held by its step down overseas subsidiaries, pledge of certain equity shares of SEL held by its promoters, personal guarantee of the chairman and managing director of SEL and limited personal guarantee of an erstwhile director of a subsidiary.

ii) INR 497.100 Million (previous year: INR 500.000 Million) of which INR 422.500 Million (previous year: INR 500.000 Million) classified as long-term borrowings and INR 7.46 Million (previous year: INR Nil) classified as current maturities of long-term borrowings is secured by first pari passu charge on all the assets of the borrowers provided to the CDR lenders shown in long-term borrowings. This loan

	<p>is repayable in 24 quarterly structured instalments starting from March 18 quarter.</p> <p>iii) INR 61.300 Million (previous year: INR 61.300 Million) of which INR 49.800 Million (previous year: INR 61.300 Million) classified as long-term borrowings and INR 11.500 (previous year: INR Nil) classified as current maturities of long-term borrowings is secured by first pari passu charge on all the assets of the borrowers provided to the CDR lenders shown in long-term borrowing. This loan is repayable in 15 quarterly structured instalments starting from September 18 quarter.</p> <p>iv) INR 4038.200 Million (previous year: INR 4133.200 Million) secured by way of exclusive charge on the stock, receivables and escrow bank account maintained for the identified projects with the lender, pledge of shares and corporate guarantee of third parties.</p> <p>v) INR Nil (previous year: INR 503.500 Million) secured by first pari passu charge on all current assets (except for land considered as stock in trade) and first pari passu charge on all property, plant and equipment and this is shown in short-term borrowings.</p> <p>vi) Vehicle loan of INR 23.700 Million (previous year: INR 11.000 Million) of which INR 9.200 Million (previous year: INR 11.000 Million) classified as long-term borrowings and INR 14.500 Million (previous year: INR 6.600 Million) classified as current maturities of long-term borrowings is secured against vehicle under hire purchase contract.</p> <p>vii) INR 4727.400 Million (previous year: INR Nil) secured by first pari-passu charge on all the existing domestic assets as available with existing lenders, both CDR and non-CDR lenders (excluding offshore securities) and escrowing the receivables from the identified projects.</p> <p>viii) INR 6141.000 Million (previous year: INR Nil) secured by first pari-passu charge on all current assets (except for land considered as stock in trade) and first pari-passu charge on all property, plant and equipment and this is shown in short term borrowings.</p>

The Company has only one class of equity shares having a par value of INR 2 each. Each holder of equity shares is entitled to one vote per share except for the underlying depository shares held against the Global Depository Receipts ('GDRs').

Holders of the GDR have no voting rights with respect to the equity shares represented by the GDRs Deutsche Bank Trust Company Americas (the 'Depository'), which is the shareholder on record in respect of the equity shares represented by the GDRs, will not exercise any voting rights in respect of the equity shares against which GDRs are issued, unless it is required to do so by law. Equity shares which have been withdrawn from the Depository facility and transferred on the Company's register of members to a person other than the Depository, ICICI Bank Limited (the 'Custodian') or a nominee of either the Depository or the Custodian may be voted by the holders thereof.

As regard the shares which did not have voting rights as on March 31, 2018 are GDRs – 2261816 / (equivalent shares – 9047264) and as on March 31, 2017 are GDRs – 2749000 / (equivalent shares – 10996000).

The Company declares and pays dividends in Indian rupees. The dividend proposed by the Board of Directors is subject to approval of the shareholders in the ensuing Annual General Meeting.

In the event of liquidation of the Company, the holder of equity shares will be entitled to receive remaining assets of the Company, after distribution of all preferential amounts. The distribution will be in proportion to the number of equity shares held by the shareholders.

The Company on February 13, 2015 signed a Shareholder Agreement as amended by an Amendment Agreement dated December 11, 2015 (collectively the "Agreement") with the Investor Group in terms of which the Investor Group agreed to subscribe to 100 Crore equity shares at the rate of INR 18 per shares aggregating to INR 18000.000 Million, which were allotted on May 15, 2015. This is in addition to shares acquired under an Open Offer under SEBI Takeover Regulations. The key terms of the Agreement with the Investor Group are as follows;

- Appointment of one nominee director.
- Certain decisions by virtue of the agreement need shareholder approval.
- Investor group and Promoters of the Company shall be considered as Persons Acting in Concert under Regulation 2(1) (q) of the SEBI Takeover Regulations.
- If the Promoters decide to transfer any of their shareholding in the Company, they shall first offer these to the Investor Group. Also, if the Investor Group decide to transfer any of their shareholding in the Company, they shall first offer these to the Promoter Group.
- The Investor Group shares shall be subject to a lock-in period applicable under applicable regulations or one-year whichever is later.
- The Investor Group shall be consulted in accordance with the provisions of the Agreement.

c. Aggregate number of bonus shares issued, share issued for consideration other than cash and shares bought back during the period of five years immediately preceding the reporting date:

The Company issued 10095000 (previous year: 10095000) shares to employees under Employee stock purchase scheme, wherein part consideration was received in the form of employee services.

COMPANY INFORMATION

The Company having CIN: L40100GJ1995PLC025447 is a public company domiciled in India and is incorporated under the provisions of the Companies Act applicable in India. Its shares are listed on two recognised stock exchanges in India. The registered office of the Company is located at "Suzlon", 5 Shrimali Society, Near Shree Krishna Complex, Navrangpura, Ahmedabad – 380 009, India. The principal place of business is its headquarters located at One Earth, Hadapsar, Pune – 411 028, India.

The Company is primarily engaged in the business of manufacturing of wind turbine generators ('WTGs') and related components of various capacities.

COMPANY'S PERFORMANCE

On a standalone basis, the Company achieved revenue from operations of INR 61426.200 Million and EBIT of INR 2449.40 Million as against INR 92292.100 Million and INR 14211.700 Million respectively in the previous year. Net loss for the year is INR 11561.400 Million as compared to net profit of INR 3557.000 Millions in the previous year. The Company has incurred losses for the financial year as compared to profits of previous year primarily due to lower volumes on account of transition of Indian wind industry from feed in tariff (FIT) regime to competitive bidding.

MATERIAL DEVELOPMENTS DURING THE FINANCIAL YEAR AND OCCURRED BETWEEN THE END OF THE FINANCIAL YEAR AND THE DATE OF THIS REPORT

During the financial year and up to the date of this Report, certain material changes took place, the details of which together with their rationale are as under:

a) Sale of SPVs – During the financial year, the Company signed share purchase agreements in respect of following domestic SPVs:

Shanay Renewables Limited and Saroja Renewables Limited for sale of 100% equity stake to Skeiron Renewable Energy Private Limited.

Rajat Renewables Limited and Kanak Renewables Limited for sale of 100% equity stake to Shruti Power Projects Private Limited (a wholly owned subsidiary of ReNew Power Ventures Private Limited).

This sale is part of the trade practice of forming special purpose vehicles for setting-up of wind turbine projects and selling them to the customers.

b) Amalgamation / Merger / Demerger

With a view to consolidate the manufacturing activities, to optimise on cost and to have enhanced efficiency, the Company had initiated a Composite Scheme of Amalgamation and Arrangement (the "Scheme") involving merger of three wholly owned subsidiaries, namely, SE Blades Limited, SE Electricals Limited and Suzlon Wind International Limited into the Company, and demerger of tubular tower manufacturing division of another wholly

owned subsidiary, namely, Suzlon Structures Limited (now known as Suzlon Global Services Limited), into the Company.

The Honourable National Company Law Tribunal ("NCLT"), Ahmedabad Bench, has approved the Composite Scheme of Amalgamation and Arrangement between SE Blades Limited, SE Electricals Limited and Suzlon Wind International Limited (collectively referred to as the "Transferor Companies" / "Amalgamating Companies") and Suzlon Structures Limited (now known as Suzlon Global Services Limited) (the "Demerging Company") with Suzlon Energy Limited (the "Transferee Company" / "Resulting Company" / "Company") and their respective shareholders and the creditors (the "Scheme") vide order dated May 31, 2017 and the Scheme has become effective from June 1, 2017 from the respective appointed dates, i.e. January 1, 2016 for merger and April 1, 2016 for demerger, consequent upon filing of the certified copy of the Order issued by the NCLT, Ahmedabad Bench, with the Registrar of Companies, Gujarat.

c) Transfer of WTG undertakings

During the financial year, the Company has signed Slump Sale Agreement on March 31, 2018 with Suzlon Gujarat Wind Park Limited ("SGWPL"), a step down wholly owned subsidiary of the Company, for transfer of the wind turbine generator undertakings ("WTG undertakings"), along with all the assets and liabilities pertaining to the WTGs of the Company as a going concern on a slump sale basis, for the purpose of moving towards consolidating the Company's power production business in SGWPL. The said WTG undertakings were earlier transferred to the Company pursuant to the merger of its subsidiaries with the Company.

MANAGEMENT DISCUSSION AND ANALYSIS

GLOBAL RENEWABLE ENERGY MARKET AND OUTLOOK

The global renewable energy generation capacity addition from different sources in the calendar year (CY) 2017 stood at 165 GW, which adds up to a cumulative installed capacity of 2,180 GW. Of the total capacity addition in CY17, solar and wind constitute for more than 85% of the share with solar taking the top place yet again with 90 GW followed by wind with 52.5 GW. However, other sources of renewable energy such as bio-energy and geothermal have grown moderately, while hydro energy addition of 20 GW is one of the lowest in the last decade.

In terms of region-wise capacity additions, the Asian markets have seen the biggest growth followed by European and North American markets. China continues to lead both in solar and wind capacity additions at 53GW and 16GW respectively.

Globally, the growth in the renewable energy industry has been fuelled by various reasons in CY17 – reduced capital costs in setting up both solar and wind power plants year-on-year, increased focus on clean energy solutions by governments through policy regimes and competitive bidding and public and private investment inflows. The investments in clean energy solutions in CY17 stood at USD 333 billion which is about 3% higher than CY16. A 3% rise in investments fuelled a growth rate of 8% in clean energy capacity addition. This is a clear indication of the declining project capital costs and tariffs for both solar and wind projects and the trend is expected to continue in the years to come. In CY17, Mexico saw a new record low tariff of USD18 perMWh for an onshore project.

The China investments into clean energy in CY17 set a new record with USD 132.6 billion an increase of 24% from CY16, followed by the United States at USD 57 billion. While Australia and Mexico have seen record level

growth in the investment inflow, countries like Japan, Germany and UK have seen a decline in investments owing to changes in their policy support.

In terms of capacity addition by source, solar clinched up a sizeable share of 48% globally worth USD 160 billion followed by wind (both offshore and onshore) which stood at USD 107 billion. Rest of the sources (biomass USD 4.7 billion, bio-fuels USD 2 billion, small hydro USD 3.4 billion, low-carbon services USD 4.8 billion) have witnessed relatively less investments in CY17. Overall, the global trend continues to see a positive momentum in terms of investment in clean energy when compared to conventional sources of energy.

GLOBAL WIND ENERGY OVERVIEW

Wind energy across the globe is going through a transition where it is now being seen as a commercial source of energy and no more a subsidised initiative or scheme supported by the government. This is also leading a slower recovery of the industry as a whole. The global wind energy installations in CY17 stood at 52.5 GW which is lower by 3.85% of CY16 that stood at 54.6 GW. The cumulative global installations now reached to 539 GW a rise of about 11% over CY16. The reduced capacity addition in CY17 was due to a sudden drop in China's wind installations over the last two years. However, other countries in Europe, Asia and North America covered up for much of this.

With 19.7 GW wind installation in CY17, China yet again tops the total global installations and becomes the key driver for market growth. India recorded its highest ever installations of 4.2GW in CY17 of which more than 80% was part of the first quarter. In Europe, Germany with 6.6GW, UK with 4.3GW and France with 1.7GW have been the three key markets that have seen growth. The US after the recent elections, which anticipated a slower growth in terms of renewable energy installations recorded 7 GW addition of wind energy largely driven by the renewable electricity Production Tax Credit (PTC).

The offshore segment, on the other hand, saw a record level achievement of 4.3GW installations which is an 87% increase compared to CY16. The recent subsidy free auction in Germany and other projects to be completed in the next five years are expected to see project costs at half the price of the current levels. This is primarily due to technological advancements in wind turbines and project execution capabilities.

In the mid to long term, the global outlook for wind energy is expected to be positive with the prices falling down steeply in the recent times, conducive policies pertaining to renewable energy in emerging countries and technological advancements in turbine technologies. The lowest tariff in late 2017 was seen in the Mexico bidding, which was at a 0.018 USD/Kwh followed by 0.030 USD/Kwh, the next lowest bids recorded in the Canada bidding. This trend is likely to continue in the coming years too but not at the same pace that was seen over the last five years.

The market is forecasted to grow at an average rate of 6- 7% over the next five years. The cumulative installed capacity by the end of 2022 is expected to reach 840GW levels. The Middle East, Latin America, Africa and North American markets are expected to see good growth rates in CY18. Key countries in Asia – India and China will witness a lower capacity addition in CY18 due to a change in the dynamics of wind business.

INDIA'S PERFORMANCE IN CY 2017

The CY17 started as one of the best years for the Indian wind industry surpassing the milestone of more than 4GW in a single year.

India achieved a total of 4,148MW of wind installation in CY17 taking its cumulative installations to 32,848MW and making it one of the most reliable sources of renewable energy in India. This has created a big positive

momentum in the industry with new investments, better turbine technologies and increased manufacturing capabilities meet India's initiative of "MAKE IN INDIA" campaign. This capacity addition has further added ease in achieving the government's target of 175 GW of renewable energy by 2022.

Amidst this positive trend, CY17 has also seen one of the biggest shift in the dynamics of how wind industry operates. The central government has made a shift from the traditional Feed-in Tariff (FIT) mechanism to competitive bidding through the auction regime. The country has already concluded 7.5GWof auctions so far through various central and state bidding. The new tariff levels dropped from 3.46 Rs/Kwh in the first auction (SECI-I) in Feb-2017 to as low as 2.43 Rs/Kwh in the Gujarat bid that took place in Dec-2017. However, there has been a slight reversal in the trend in the second quarter of CY18 wherein the tariff was at 2.51 Rs/KWh in the SECI auction held in April-2018.

The sudden cease of FiT by states and falling tariffs created a short-term vacuum in the wind installations in FY18 with the total wind installation in FY18 restricted to 1,765 MW. During the same period, Suzlon installed 626 MW in FY18 which is the highest by an OEM and propels its market share to 35%. With the change in market dynamics, there is a huge pressure on turbine pricing that has forced OEMs to optimize costs through improved technology, higher Annual Energy Production (AEP) turbines, optimised project execution costs, and value engineering.

INDIA WIND ENERGY OUTLOOK

The outlook for wind energy in India looks very positive in the coming years. With the transition from FiT to bidding regime for wind projects, the tariffs have become highly attractive and the signing of Power Purchase Agreements (PPAs) for procurement of power by non-windy states have become institutionalised, thereby a huge potential for rapid growth of the industry. The already concluded wind auctions of 7.5 GW have led to a huge order backlog for execution in the coming years. Further, the government of India is committed to auctioning more such bids and will be driven by huge capacity additions in the range of 10-12 GW per annum.

Notes:

1. The above results have been reviewed by the Audit Committee at its meeting held on August 3, 2018 and approved by the Board of Directors at its meeting held on August 4, 2018. The statutory auditors of the Company have carried out a review of the above results for the Quarter ended June 30, 2018.
2. The Company has adopted Ind AS 115, Revenue from contract with customers which is effective from April 1, 2018. Under the new standard, revenue is recognised upon the satisfaction of the performance obligations for the goods or services using the cumulative catch-up transition method, the Company has applied Ind AS 115 to contracts that were not completed as of April 1, 2018. Application of this Standard has resulted into positive Impact on opening reserves amounting to Rs. 10.24 crores. The Impact on the current period Income statement is not material. Further as per the standard, variable consideration is reduced from revenue.
3. Exceptional Item in standalone financial results for the Quarter ended June 30, 2018 Includes Impairment provision on Investments in subsidiary.
4. The financial information of the Company for the Quarter ended June 30, 2017, were jointly reviewed by S R Batlibol and Co. LLP. Chartered Accountants and SNK & Co. Chartered Accountants, the predecessor auditor.
5. The figures for the quarter ended March 31, 2018 are the balancing figures between audited figures in respect of the full financial year and the limited reviewed year-to-date published figures for the nine month period ended December 31, 2017.
6. Figures for the previous periods have been regrouped / re-classified to conform to the classification of the current period.

PRESS RELEASE / WEBSITE DETAILS

CLP INDIA AND SUZLON ENTER A PARTNERSHIP FOR TWO SOLAR PROJECTS OF 50 MW AND 20 MW IN MAHARASHTRA

Date: 11th September, 2018

- Two projects won by Suzlon through competitive bidding and CLP India will acquire a stake of 49% in the projects
- Joint venture marks CLP India's second solar project with Suzlon
- Power Purchase Agreement (PPA) has a fixed tariff for 25 years at 4.115 INR/kWh for 20 MW and 3.66 INR/kWh for 50MW
- Off taker will be Solar Energy Corporation of India Limited (SECI)

Mumbai, India: CLP India, one of the largest foreign investors in the Indian power sector, and Suzlon, India's largest renewable energy solutions provider, today announced a joint venture for two solar projects of 50 MW and 20 MW in Dhule, Maharashtra. As per the agreement signed between CLP India and Suzlon Group on September 10, 2018, CLP India has agreed to acquire 49% stake in Gale Solarfarms Limited and Tornado Solarfarms Limited, two special purpose vehicles (SPV) set-up by Suzlon. CLP India has the option to acquire the balance 51% stake in the future. Suzlon is responsible to provide comprehensive operation and maintenance services for these projects that are already commissioned.

Mr. Rajiv Mishra, Managing Director, CLP India said, "In the last 16 years, they have built one of the most diversified fuel mix portfolios in the country and they are committed to expanding their renewable energy portfolio on the back of supportive government policies. With wind energy, they have been able to grow their footprint to almost 1000 MWs and they are confident of steadily building on their solar energy footprint. They already have two wind energy projects in Maharashtra and they are happy to add another two solar projects here."

Mr. Mahesh Makhija, Director, Business Development and Commercial (Renewables), CLP India said, "Renewable energy has been a key pillar for us in their growth journey. They believe the renewables sector has transformed over the years and introduced several international best practices that have enhanced ease of doing business and encouraged further investments. They believe in the potential growth of the sector and will continue evaluating sustainable projects. They have a long-standing association with Suzlon for both their wind and solar projects. They made their foray into solar energy with them for a 100 MW project in Veltoor. This project was recently awarded world's first solar project quality certification, having exhibited the highest quality standards. They are confident that they will be able to continue driving operational excellence across all their projects"

Mr J.P. Chalasani, Group CEO, Suzlon Group said, "They are glad to partner with CLP India for these two solar projects in Maharashtra. They are pioneers in the Indian wind energy and established a successful track record and leadership in the sector for over two decades. They are proud to have also proven their capabilities in solar

with the execution of this 70 MW solar standalone project. They have commissioned a total of 340 MW solar projects including this and completed delivery of their entire solar order book. They are committed to partner with their customers to enable India's transition to a low carbon economy. With their expertise now both in wind and solar, they are progressively working towards harnessing the emerging opportunities in Wind-Solar Hybrid. Their pan-India presence, comprehensive product portfolio, robust in-house R&D and best-in-class services gives us the competitive edge."

About Suzlon Group

Suzlon Group is one of the leading renewable energy solutions provider in the world with an international presence across 18 countries in Asia, Australia, Europe, Africa and Americas. Headquartered at Suzlon One Earth in Pune, India; the Group is comprised of Suzlon Energy Limited (NSE & BSE: SUZLON) and its subsidiaries. A vertically integrated organization, with over two decades of operational track record, the group has a cumulative installation of ~17.9 GW of wind energy capacity, over 7,600 employees with diverse nationalities and world-class manufacturing facilities. Suzlon is the only Indian wind energy company with a large in-house Research and Development (R&D) set-up in Germany, the Netherlands, Denmark and India. Over 11.9 GW of the Group's installation is in India, which makes up for ~35% of the country's wind installations, making Suzlon the largest player in this sector. The Group is the custodian of over 11.9 GW of wind assets under service in India making it the second largest Operations and Maintenance company (over 8,000 turbines) in Indian power sector. The Group also has around 4 GW of wind assets under service outside India.

About CLP India CLP

India is the wholly owned subsidiary of CLP Holdings Ltd, which is listed on the Hong Kong Stock Exchange and is one of the leading investor-owned power businesses in Asia. Entering the Indian power sector in 2002, it has become one of the largest foreign investors in the Indian power sector with a total committed investment of over INR 145000.000 Million. The diversified and environmentally friendly generation portfolio, amounting to over 3,000 MW, covers renewable energy, supercritical coal and gas fired power plants.

CLP India is one of the largest renewable energy producers in India with operational and committed capacity of around 1100 MW across wind and solar All the wind projects are wholly owned by CLP. The Veltoor solar project is the first joint venture project for CLP India. After this new investment, CLP India has extended its presence in India across eight states. CLP India was the first power company in South Asia and Southeast Asia to issue corporate green bonds, as well as the first Power Company in India to issue an asset-specific bond.

CLP entered the Indian Power Sector in the year 2002 with the acquisition of a 655 MW gas fired power plant which is located in Bharuch, Gujarat. This power plant was one of the first independent power projects in India and complies with the highest level of internationally accepted standards in safety and in environment conservation. In addition to this, CLP India owns and operates a 1,320 MW (2 X 660MW) supercritical coal-fired power plant in Jhajjar, Haryana, which is one of India's first supercritical coal-fired power plants.

WHAT SUZLON'S FLIP-FLOP ON GROWTH GUIDANCE TELLS US ABOUT WIND SECTOR

Apart from the challenges to capacity addition in the near term, there will also be ramifications for Suzlon Energy, Inox Wind and other unlisted wind power firms

Date: Aug 08 2018

Wind power provider Suzlon Energy Ltd's decision to withdraw the annual growth guidance barely three months into the fiscal year triggered a sell-off in its stock on Monday. In May, Suzlon predicted 45-56% revenue growth for the current fiscal year on the basis of its order book and execution capabilities. However, it recently withdrew the growth guidance citing approval delays, prolonged execution cycles and bid deferrals. The management further said that clarity will emerge only in the third quarter of FY19 as it expects the industry to adjust to the new execution timelines and return to growth in FY20.

However, the announcement should not be a deal breaker for investors, given that the renewable energy sector has been in the midst of a transition for about a year now following the change in rules in feed-in tariffs and auction-based capacity addition.

That said, Suzlon's decision to withdraw its growth guidance on the back of weak financials in the June quarter and the cancellation of capacity addition tenders for wind power show that the transition to the auction-based regime is going to be far from smooth. Apart from the challenges to capacity addition in the near term, there will also be ramifications for equipment suppliers such as Suzlon, Inox Wind Ltd and other unlisted firms.

U.B. Reddy, managing director and chief executive of wind energy services provider Enerfra Services Pvt. Ltd, said the evacuation constraints are not unknown. Union government auctions are centred on the main grid of the country. But the grid does not have enough substation capacity at high-wind locations, posing an evacuation challenge. This is the primary reason why the recent Solar Energy Corp. of India Ltd's 2,000 megawatts (MW) tender was undersubscribed, leading to its cancellation.

Experience shows that the grid infrastructure requires investments. This has an opportunity cost as cancellation of tenders will delay ordering for wind turbine equipment. This is happening at a time when the non-auction based capacity additions such as feed-in tariffs, captive-based additions (which were a substantial market two years back) have almost dried up.

SUZLON WANTS TO RE-ENTER OVERSEAS MARKETS: CEO J.P. CHALASANI

Suzlon plans to re-enter the US, Europe and India's neighbouring countries and hoped to get some orders as early as next quarter, says CEO J.P. Chalasani

Date: Jul 29 2018

Mumbai: Leading wind turbine maker Suzlon Energy Ltd is planning to re-enter the international markets, chief executive J.P. Chalasani has said. Pune-based Suzlon was on a leveraged expansion spree when the global markets were good and used to draw close to 60% income from overseas operations until 2008, when the global financial crisis took its toll on investments in the renewable energy sector.

"There was a time their exports were more than their domestic revenue," said Chalasani. "Then we went through a financial crisis—forcing us to slow down their international business and stabilize whatever assets we have." "But now that we have regained their market position, we are planning to re-enter international market shortly. We hope to get some orders as early as next quarter." Suzlon plans to re-enter the US, Europe and the neighbouring countries, Chalasani added.

Suzlon has undergone debt restructuring—bringing down debt significantly by divesting part of its international operations. In January 2015, the Tulsi Tanti-led firm sold German subsidiary Senvion at equity valuation of €1 billion.

According to Chalasani, Suzlon, which had bought the German renewables major Repower in its heydays and then exited, currently has 5,500 MW in installed capacity outside India.

“They began re-looking at getting back into international markets last year, and we have already strengthened their organization, and also appointed a new chief executive for this. We hope to get some global bids from next quarter itself,” Chalasani said. The contribution of exports will be lower compared to domestic business as they will go very cautiously this time around.

Speaking about the opportunities in the domestic market, Chalasani said: “Lower tariff is the key to the sector. One major thing is the shift from feed-in-tariff to tariff-based competitive bidding.”

“So far, 7,500 MW has been awarded under SECI I, II, III, IV plus Maharashtra, Gujarat and Tamil Nadu put together. Of this, we have the largest market share of close to 25% of tied up capacity. “Keeping that in mind, I don’t see why we won’t maintain their lead position in terms of billing and bidding and maintain 25% share of the total bids awarded,” he said.

Currently, bids for 10,000 MW in renewable energy are out which will be finalized over the next two months—a huge opportunity for Suzlon. “Their focus on R&D has helped us move from 90 metre to 120 metre tower height and now they are introducing 140 metre in a short span of one year,” Chalasani said.

When asked about the company’s debt position, the CEO said, “We will bring down their debt by 30-40% debt latest by December 2018 through asset monetization. As of March 2018, their net debt stood at INR 6,000.000 million.”

Suzlon continues to own 100% of its domestic assets and has strategic presence in select overseas markets. According to its current shareholding pattern, 20% of Suzlon is owned by promoters, 19% by Dilip Shanghvi Family and Associates and 5% is with lenders. The rest is with institutional and retail investors.

CMT REPORT (Corruption, Money Laundering & Terrorism]

The Public Notice information has been collected from various sources including but not limited to: **The Courts, India Prisons Service, Interpol, etc.**

1] INFORMATION ON DESIGNATED PARTY

No records exist designating subject or any of its beneficial owners, controlling shareholders or senior officers as terrorist or terrorist organization or whom notice had been received that all financial transactions involving their assets have been blocked or convicted, found guilty or against whom a judgement or order had been entered in a proceedings for violating money-laundering, anti-corruption or bribery or international economic or anti-terrorism sanction laws or whose assets were seized, blocked, frozen or ordered forfeited for violation of money laundering or international anti-terrorism laws.

2] Court Declaration :

No records exist to suggest that subject is or was the subject of any formal or informal allegations, prosecutions or other official proceeding for making any prohibited payments or other improper payments to government officials for engaging in prohibited transactions or with designated parties.

3] Asset Declaration :

No records exist to suggest that the property or assets of the subject are derived from criminal conduct or a prohibited transaction.

4] Record on Financial Crime :

Charges or conviction registered against subject: **None**

5] Records on Violation of Anti-Corruption Laws :

Charges or investigation registered against subject: **None**

6] Records on Int'l Anti-Money Laundering Laws/Standards :

Charges or investigation registered against subject: **None**

7] Criminal Records

No available information exist that suggest that subject or any of its principals have been formally charged or convicted by a competent governmental authority for any financial crime or under any formal investigation by a competent government authority for any violation of anti-corruption laws or international anti-money laundering laws or standard.

8] Affiliation with Government :

No record exists to suggest that any director or indirect owners, controlling shareholders, director, officer or employee of the company is a government official or a family member or close business associate of a Government official.

9] Compensation Package :

Our market survey revealed that the amount of compensation sought by the subject is fair and reasonable and comparable to compensation paid to others for similar services.

10] Press Report :

No press reports / filings exists on the subject.

CORPORATE GOVERNANCE

MIRA INFORM as part of its Due Diligence do provide comments on Corporate Governance to identify management and governance. These factors often have been predictive and in some cases have created vulnerabilities to credit deterioration.

Our Governance Assessment focuses principally on the interactions between a company's management, its Board of Directors, Shareholders and other financial stakeholders.

CONTRAVENTION

Subject is not known to have contravened any existing local laws, regulations or policies that prohibit, restrict or otherwise affect the terms and conditions that could be included in the agreement with the subject.

RATING EXPLANATIONS

Credit Rating	Explanation	Rating Comments
A++	Minimum Risk	Business dealings permissible with minimum risk of default
A+	Low Risk	Business dealings permissible with low risk of default
A	Acceptable Risk	Business dealings permissible with moderate risk of default
B	Medium Risk	Business dealings permissible on a regular monitoring basis
C	Medium High Risk	Business dealings permissible preferably on secured basis
D	High Risk	Business dealing not recommended or on secured terms only
NB	New Business	No recommendation can be done due to business in infancy stage
NT	No Trace	No recommendation can be done as the business is not traceable

NB is stated where there is insufficient information to facilitate rating. However, it is not to be considered as unfavourable.

This score serves as a reference to assess SC's credit risk and to set the amount of credit to be extended. It is calculated from a composite of weighted scores obtained from each of the major sections of this report. The assessed factors are as follows:

- Financial condition covering various ratios
- Company background and operations size
- Promoters / Management background
- Payment record
- Litigation against the subject
- Industry scenario / competitor analysis
- Supplier / Customer / Banker review (wherever available)
