(Mira Inform has adopted New Rating mechanism w.e.f. 23rd January 2017)

MIRA's Rating :	A++
------------------------	-----

Credit Rating	Explanation	Rating Comments
A++	Minimum Risk	Business dealings permissible with minimum risk of default

Status :	Excellent
Payment Behaviour :	Regular
Litigation :	Exist
Comments :	<p>Subject is a well-established company incorporated in the year 1943. It is a step down subsidiary of 'BASF Societas Europaea (SE)'. It is engaged into manufacturing and selling of agricultural solutions, performance products, chemicals, and functional materials.</p> <p>For the financial year ended 2018, the company has increased its revenue from operations as compared to previous year and reported average profitability margin of 4.31%.</p> <p>Rating takes into consideration strong financial profile of the company marked by healthy networth base along with low debt balance sheet.</p> <p>Rating derives strength from its company's experienced management team, strong operational and product support from its parent company BASF SE, which is one of the leading chemical company in the world and diversified service offerings across verticals and geographies which help mitigate business concentration risks.</p> <p>Share price are quoted high on stock exchange (Share Price of INR 1855 with face value of INR 10).</p> <p>However, rating strength is partially offset by exposure to risks inherent in the crop protection sector.</p> <p>Trade relations are fair. Payments are seems to be regular.</p>

	In view of established market position, the company can be considered good for normal business dealings at usual trade terms and conditions.

BACKGROUND OF THE COMPANY

Subject is a public limited Company domiciled in India with its registered office located in Mumbai. The Company is listed on the Bombay Stock Exchange (BSE) and the National Stock Exchange (NSE). The Company's portfolio is organized into four segments: Chemicals, Performance Products, Functional Materials and Solutions and Agricultural Solutions.

PERFORMANCE

Revenue from operations (net of GST / Excise) at INR 55834.000 million, represents an increase of 10% over the previous year. The Company reported a profit after tax (after exceptional items) of INR 2465.000 million for the year ended 31st March, 2018 as compared to loss after tax (after exceptional items) of INR 141.300 million in the previous year due to good performance in all business segments.

The Agricultural Solutions business of the Company registered good growth in sales and profits during the year as compared to the previous year mainly due to increased sales realised from successful launch of new products as well as diversification into new crops like rice & corn.

The Chemicals segment of the Company comprising of the Intermediates, Petrochemicals and Monomers businesses registered substantial increase in sales & profits during the year mainly due to better realisation coupled with strong domestic demand driven by increase in prices of Monomers and Amine related products.

The Functional Materials & Solutions segment of the Company which comprises of the Performance Materials, Coatings, Construction Chemicals and Process Catalysts Technologies business registered modest growth in sales during the year as compared to the previous year. However, it registered good growth in profits on account of better margins in performance materials business, driven by good performance in transportation segment.

The Performance Products segment, which includes Performance Chemicals, Dispersions & Pigments, Care Chemicals, Nutrition & Health products and Paper Chemicals businesses registered higher sales & margins during the year as compared to the previous year owing to increase in volumes from Dahej Plant & improved profitability of the Dispersions business.

MANAGEMENT DISCUSSION AND ANALYSIS REPORT

The global economy grew steadily at 3.8% in 2017. Global prices for oil and raw materials rose moderately, which helped to stabilize the economic situation in the exporting countries. At the same time, the price level remained low enough so as not to dampen the demand and economic development in the importing countries like India.

India's economy is expected to grow at a lower rate of ~6.5% in 2017-18, due to the continued impact of demonetization and implementation of Goods and Services Tax (GST). Agriculture is estimated to grow at ~3% in 2017-18 while the industry and service sectors are expected to grow around 4.5% and 8% respectively. Manufacturing sector is expected to grow lower at around 5.5% compared to 7.9% in the previous year.

In 2017-18, passenger utility vehicles, three wheelers and two wheelers led the growth in the domestic automobile industry. Production of four wheeler light vehicles grew by 6.8% while two wheelers registered a high 16.1% growth.

The Indian construction industry is estimated to grow more than 3% in 2017-18.

Government of India's reform initiatives like simplification of GST, digitalization, focus on rural economy, bank recapitalization and insolvency rules are likely to contribute to the growth of the Indian economy while rising oil prices and widening fiscal deficit are key challenges that will need to be addressed.

The products manufactured by the Company serve several sectors including agriculture, automotive, pharmaceuticals, construction, consumer durables, consumer care, paper and paints.

AGRICULTURAL SOLUTIONS

The Agricultural Solutions business includes products for crop protection like insecticides, herbicides, fungicides and plant growth regulators.

The sales of the products of the company's Agricultural Solutions business are dependent on the monsoon. An erratic monsoon in the year 2017 had its impact on herbicides sales in soybean markets. However, with strategic efforts on diversification within and beyond soybean helped to mitigate the impact. Newly launched products on rice viz., SELTIMA™, ADEXAR™ and BASAGRAN™ have been established well.

Sales realized from new products further improved with significant growth in sales of TYNZER™ in corn, XELORA™ and OPERA™ in soybean and wheat, ACRISIO™ and MERIVON™ in specialty crops such as grapes.

In keeping with the Company's commitment to stewardship, 'Suraksha Hamesha', a farmers education initiative on safe handling of crop protection chemicals was extended to spray men and housewives in addition to the farmers across the country. The 'Sanrakshan Kit' containing Personal Protection Equipment (PPE), was further improved with additional components and was also made more affordable to the farmers at a subsidized price.

PERFORMANCE PRODUCTS

The Performance Products segments includes the Performance Chemicals, Dispersions & Pigments, Care Chemicals, Nutrition & Health products and Paper Chemicals businesses. This segment caters to the requirements of a wide spectrum of industries, including plastics & coatings, detergent formulators, pharmaceuticals, automobile and oil.

During the year, the Leather Chemicals business of the Company was transferred to Stahl India Private Limited with effect from 30th September, 2017, pursuant to global sale of BASF's Leather Chemicals business to Stahl Group. However, the Company is supplying leather chemical products from its manufacturing facilities to Stahl India Private Limited under a supply arrangement.

The Care Chemicals business of the Company caters to the personal care, home care and formulation technology sectors. The year started with headwinds due to the lingering effects of demonetization, roll out of GST and volatile feedstock market, resulting in a relatively slow start to the year. However, as the external environment stabilized, there was gradual acceleration in demand. In the personal care market, the Company continued to maintain its position through focused customer approach, effective channel management and a robust sales pipeline.

The home care market witnessed stronger growth in the cleaning category ably supported by new business in premium formulations through sustainable solutions. The Company increased customer centricity for personal

and home care market through enhanced participation in customer events. The formulation technology business, in addition to the volatile environment, faced supply constraints in focused product lines. The Company capitalized business from newer segments in agro and textile and added applications such as metal surface treatment.

The Paper Chemicals – wet end business of the Company caters to diverse industry segments such as graphical paper, newsprint, and packaging paper and enjoys substantial customer goodwill. Innovative solutions to encourage paper recycling and reduction in the usage of water in the paper manufacturing process were also introduced. Exports of imaging products continued to rise. A comprehensive product portfolio along with requisite technical expertise enabled this business to grow in sales and profits during the year.

The Water Solutions business of the Company provides solutions to raw water, industrial and municipal effluents. In spite of a poor sugar season, due to secured orders from key accounts and leveraging of the cross business unit Synergies by introduction of products / solutions in new applications / markets, the sales of the Water Solutions business of the Company grew over previous year.

The Company's Plastic Additives business is categorized into antioxidants and light stabilizers for the plastic industry. Customers are broadly classified into upstream industries, such as polymer manufacturers and downstream industries such as packaging and automotive. Expansion plans of major polymer producers and expected shift from natural fibers to plastic in the packaging sector will give rise to the demand for light stabilizers and antioxidants. New business development activities undertaken during the year helped to significantly increase the sales of this business as compared to the previous year.

The Fuel and Lubricants business of the Company caters to the automotive, fuel, lubricants, refinery and refrigeration industries. This business ventured into the untapped markets of Polyisobutene, base-stocks and compounded lubricants. New aftermarket avenues for coolant were identified and products introduced. Fuel additives were established in the factory to fill markets of the premium automotive OEM's (Original Equipment Manufacturers) during the year. Fuel and Lubricant Solutions provide products that are safe and contribute to sustainability, meet environmental concerns enabling energy efficiency by end consumers.

AWARDS AND RECOGNITION

BASF's Supply Chain team in South Asia received two awards for Excellence in Supply Chain Planning, Best Health and Safety Initiative in Logistics at the Global Logistics Awards 2018 – an industry event held in Mumbai. The Company was adjudged the winner for its efforts in improving safety standards and operational efficiency at its dangerous goods warehouse. The Company is also working towards digitization of key activities in the supply chain which will ensure reduced call tracking time and lead to transparency in customer servicing.
