## **OPERATIONAL PERFORMANCE**

### **Refineries**

The 9 refineries of the Corporation achieved the highest ever crude throughput of 69.00 million metric tonnes during the year 2017-18 as against 65.19 million metric tonnes in 2016- 17. The capacity utilisation was 99.7 per cent as against 94.2 per cent during 2016-17. The distillate yield of refineries of the Corporation improved to 80.4 per cent from 78.8 per cent achieved during the previous year. The refineries also achieved excellent energy parameters of Fuel & Loss and Specific Energy Consumption (MBN) at 8.75 per cent and 72.61 respectively, as against 9.4 and 74.9 registered during 2016-17.

The Mathura and Panipat refineries commenced BS-VI grade auto fuel supplies well in time to meet the 1st April 2018 timelines for National Capital Territory.

To boost flexibility in crude oil sourcing, the Corporation's crude oil basket was expanded with inclusion of 16 new grades, of which 11 were of US origin. Processing of cheaper, heavy & high- TAN grades was stepped up to over 21.4 per cent during the year, compared to 18.4 per cent in the previous year. Processing of high-sulphur crude oil was also higher at 55.6 per cent compared to 51.6 per cent in the previous year.

### **Pipelines**

The cross-country network of crude oil, petroleum and gas pipelines of the Corporation has been its major strength in reaching out to new markets and customers and sustaining its competitive advantage as the least-cost supplier. The crude oil pipelines achieved a throughput of 51.08 million metric tonnes as against throughput of 51.34 million metric tonnes during the previous year. The petroleum product pipelines recorded the highest ever throughput of 34.60 million metric tonnes as against 31.15 million metric tonnes achieved last year, registering a growth of 11.06 per cent. The gas pipelines also achieved the highest ever throughput of 1,683 MMSCM during the year, as against a throughput of 1,587 MMSCM in 2016-17.

With the commissioning of 543 km of new pipeline sections during the year and augmentation of existing pipelines, the total length of the pipeline network of crude oil, product and gas pipelines as on 31st March 2018 expanded to 13,391 km with cumulative throughput capacity of 94.79 MMTPA (crude oil and product) and 9.5 MMSCMD (gas pipelines).

### **Marketing**

The Corporation continued to energise and empower all sections of the economy during the year and achieved highest ever sales of 77.13 million metric tonnes of petroleum products during the year, as against 74.11 million metric tonnes during the previous year. In addition, 7.18 million metric tonnes of petroleum products were exported during the current year as against 4.72 million metric tonnes exported during the previous year.

During the year, the Corporation commissioned 953 retail outlets (fuel stations, including 502 Kisan Seva Kendra outlets in rural areas) taking their total number to 27,089. The Kisan Seva Kendra (KSK) outlets of the Corporation increased their contribution to the total sales of Corporation with Petrol (Retail) touching a new high of 15.7 per cent and Diesel (Retail) touching 15.1 per cent. In addition, CNG facilities were commissioned at 100

retail outlets during the year, which increased the CNG market share by 3.29 per cent. The Corporation continued with its focus on the use of alternate energy, and 2,533 retail outlets were converted to operate on solar energy during the year, taking their number to 9,140 outlets i.e. 34 per cent of the total number of retail outlets.

During the year, the Corporation released new domestic LPG connections to 131.7 lakh customers, out of which, 73.8 lakh connections were released under Pradhan Mantri Ujjwala Yojana (PMUY), the flagship scheme of the Government of India, to the women of poor households with an objective to improve the health of poor families by providing clean cooking fuel. The Corporation achieved an all-time high LPG sales of more than 10.8 MMT and bottling capacity was augmented by 540 TMTPA to meet the increased demand of LPG.

In the Lubricants segment, SERVO maintained its market leadership position during the year and registered positive growth across all segments of finished lubricants.

## PROJECTS

The Corporation recognises the importance of infrastructure development and has been consistently investing in several projects across the country. The project teams across the divisions in the Corporation ensure that the projects are implemented seamlessly.

The projects are financed through an optimum mix of internal accruals and borrowings from domestic as well as international markets whenever required. During the year, the Corporation spent over ₹ 20,000 Crore on capital projects including ₹ 3,275 crore through Special Purpose Vehicle. Despite the significant capital expenditure, the overall borrowings of the Corporation increased only by ₹ 3,210 crore as most of the Capex requirement was met through internal accruals.

The details of the projects completed, ongoing and future are as under:-

## **MANAGEMENT'S DISCUSSION & ANALYSIS**

### **Global Economy Performance & Outlook**

The year was marked by a buoyant global economy. Global economic growth accelerated to 3.8% in 2017 from 3.2% in 2016 on account of a broad-based global recovery. OECD economies witnessed a steep acceleration in growth, with growth rate rising to 2.3% in 2017 from 1.7% recorded in 2016. Non-OECD economies also witnessed acceleration in growth, economic activity rose by 4.8% in 2017 from 4.4% in 2016.

The year was marked by rising purchasing managers indices, rising consumer confidence, growing industrial production, rising commodity prices and growing trade volumes across majority of countries. Further, rising commodity prices, especially energy prices, supported growth in commodity exporting countries like Brazil and Russia. Private consumption and exports drove growth in China, which re-emerged as the fastest growing large economy in 2017. Pick-up in investment and accommodative monetary policies supported growth in OECD economies. The progressively improving labour market conditions and inflation situation in the US also warranted gradual withdrawal of monetary support.

Looking ahead, global growth is expected to accelerate further in the next two years. The prevailing buoyancy in global economic activity, favourable market sentiment, financial conditions and implementation of expansionary fiscal policy in the United States are expected to support global growth. However, rise in protectionist measures, sanctions, worsening of geo-political conditions could act as key downside risks to the prospects of the global economy.

### **Indian Economy Performance and Outlook**

During the year, GDP growth slipped marginally to 6.7% from 7.1% in 2016-17. Slippage in growth was seen in agriculture and manufacturing sectors. It was the services sector that provided support to the overall GDP growth, wherein growth accelerated to 7.9% from 7.5% in the previous year.

Looking at the economy's performance from the demand side, India's consumption growth weakened in both private and government space. This segment has been the key driver of GDP growth and a slowdown here played a significant role in bringing down the growth rate. Besides, the performance on investment front was also below expectation. Growth in gross fixed capital formation was above the average growth rate in previous 5 years but lower than last year. In addition, muted exports growth and resurgence in import demand mainly on account of pricier oil imports and higher gold imports also weighed on the growth in aggregate demand.

In terms of performance of macroeconomic parameters, the performance during the year was mixed. Retail inflation slowed down to 3.6% in 2017-18 from 4.5% in the previous year. However, the decline was far from smooth, with inflationary pressures building up midcourse. Fiscal Deficit in 2017 - 18 was 3.5% of GDP, unchanged from 2016-17 level, but above the budget estimate of 3.2% of GDP for 2017-18. Subdued export performance and rising imports weighed on growth and current account deficit deteriorated to 1.9% of GDP from 0.7% of GDP in 2016-17. There was a slight dip in net foreign direct investment (FDI) inflows as well, which have dipped to \$31 billion, from the level of \$36 billion in previous two years. While Rupee remained stable, on overall

terms it appreciated to `64.44/US\$ during the year from `67.09/US\$ in 2016-17. Net Portfolio flows remained buoyant and almost tripled from 2016-17 levels.

In the current year, prospects are looking up for the economy. Growth is expected to accelerate to around 7.4% in 2018-19 driven by improving global demand, investment revival, which is becoming visible with the sustained expansion in capital goods production and rising imports. Rejuvenation of rural demand propelled by healthy monsoons and rural & infrastructure sector focused budget schemes and reforms also expected to drive growth, besides, continued implementation of structural reforms will be a key facilitator of growth. The transitory effects of demonetization and GST are expected to diminish and the positive gains from implementation of GST by reducing internal barriers to trade are expected to kick in by raising efficiency levels and tax compliance. Key risks to the outlook emanate from distressed banking sector assets and rising international crude oil prices.

**PRESS RELEASE**

**August 30, 2018**

**IOC TO DOUBLE RETAIL OUTLETS**

State-owned Indian Oil Corporation Limited (IOCL), India's largest fuel retailer is planning to almost double its retail outlets to more than 52,000 in the next three years, from 27,000 now to maintain its market leadership in fuel retail. These include both company-owned and franchisee-run outlets.

Together, state-owned oil marketing companies (OMCs) — IOCL, Hindustan Petroleum Corporation Limited (HPCL) and Bharat Petroleum Corporation Limited (BPCL) have plans to add 50,000 new retail outlets in the next three years.

Among them, the trio currently has about 57,000 retail pumps. "We will add 50% of the 50,000 new retail outlets to be set up by the OMCs. The advertisement for new pumps is likely to be issued next month," Gurmeet Singh, director marketing, IOCL told The Hindu.

IOCL is the market leader with 46% share in the petroleum fuel retail market.

For the first time, OMCs have decided to come out with a separate, area-wise list of locations, inviting dealers to set up outlets. "This will [help] avoid competition among OMCs and will help the dealers."

IOCL plans to double its refining capacity to 140 million metric tonnes (MMT) by 2030 to meet the country's growing energy demand.

On crude oil imports from Iran, IOC chairman Sanjiv Singh said, "We are continuing to import from Iran. Iran is India's third largest crude oil supplier. The sanctions will kick in from November 4 and we have alternative arrangements in place. There will be no shortage of crude oil for the country."

Asked about the hoardings of Prime Minister Narendra Modi at retail outlets, which is contributing to a controversy ahead of the elections, the chairman said, "PMUY posters [have] always had the PM's picture; they were there last year too. It is the elections that are new," he said.
